Tool Carriers

The ideal companion
for your tools

Hultafors

NEWS

The ideal companion for your tools

For 140 years, Hultafors has been creating premium hand tools with the aim of providing the best possible function, precision, and quality. After the success of our tool bucket, we are now taking the next step with the launch of a range of tool carriers that are the ideal companions for all your tools.

We always work in close collaboration with craftsmen and professionals, design with intent and test our products rigorously. These bags are no exception, they are developed to make your workday easier and more convenient, and to make sure that you can carry your tools in an ergonomic way.

In this new range you'll find backpacks, both open and closed tool carriers and bags crafted especially for electricians, technicians, and maintenance workers. These bags are created to offer you unmatched organization, durability, and ergonomic comfort.

[hultafors.com](https://www.hultafors.com)

FEATURES

More than just tools

Tool carriers aren't just for tools, most craftsmen also store personal items, valuables and electronics such as laptops, pads and test equipment in their tool bags. Therefore, we've taken care to include pockets and storage space for a wide range of equipment. They can be closed securely with lids or zippers, and we've also included carabiners where you can attach your keys.

Access and overview

No one wants to spend their time looking for their tools, so we've designed our bags for the best possible access and overview. The center compartment of our technicians' bag has an extra-large framed opening that allows you to leave it fully open while you work. Our open top carriers are also designed with big openings and handles that folds away. Several bags include transparent pockets, and alternating red and black fabric makes it easier to tell different tools and pockets apart. Some bags also have red fabrics in the bottom making it easier to see what's hiding down in the darkness.

Ergonomically curved back

The back of our ergonomic tool carrier and our tool bucket has an ergonomic curve. It gives your leg better room to move, and you don't have to lift the bag as far away from your body when you walk.

Rubber handle

The handle on our open top carriers are extra high, making it easier to reach down and pick up the bags. It has a long rubber covering so you can grip comfortably along the entire handle and balance an unevenly loaded bag. It also folds away for easy access and overview.

Molded base and Base pads

Two bags feature a robust molded base that prevents the bag from tipping over, protects the bottom from moist, dirt and wear - and keeps your tools dry. The other bags feature large base pads in every corner that protects the bottom of the bag.

Measuring tape holder and Electricians tape holder

Most bags feature a measuring tape holder on the outside of the bag. It comes in the form of a metal bracket where you easily can clip on a measuring tape. Several bags are also equipped with a tape holder for electricians' tapes.

Lap top sleeve

Both our backpacks have a padded compartment for secure storage of laptops, tablets and documents. They fit laptops up to 15".

Choosing a tool bag

When it comes to choosing a tool bag, it's not just your trade that determines the best fit. Your personality, habits, commute and work environment are just as important. Think about the tools you use most frequently and ensure they'll fit. But remember that a large bag can become very heavy so for ergonomics and comfort perhaps a smaller bag and a backpack is a better choice. Backpacks are a great choice in general, they leave your hand free to carry other things, open doors and high five your colleagues.

Also consider your environment, do your tools need protection from rain dust or devious people? In that case perhaps a closed bag is to prefer. Otherwise, an open carrier is a great choice giving you unrestricted overview and access.

Discover the Difference with 1680 Deniers

At Hultafors quality and durability are always top priorities, so when it came to choosing a fabric for our tool carriers we didn't compromise. We've chosen a real heavy-duty fabric - one of the best we could find.

A fabric to rely on

Our tool bags are made with a 1680D Polyester fabric. The D stands for denier and a higher denier means a thicker, sturdier, and more durable fabric. Standard fabrics for tool bags are typically between 300D and 600D so you can count on a tangible difference.

Tool carriers with a 1680D fabric are extremely durable and ideal for outdoor use and harsh conditions. The fabric is water-repellent, resists stains, dust, and mildew, and can handle a wide temperature span. A high tensile strength means that it won't rip or tear, neither will it stretch or fade. This gives you a product with extreme durability and a longer service life - a sound investment both economically and environmentally.

1680
DENIER

WATER & DUST
REPELLENT

IDEAL FOR
LONG TERM USE

What is a Denier?

A denier is a measurement of how much a unit of yarn weighs, more precisely how much a 9000 meter long thread weighs. 1680 Deniers means that a thread from the fabric would weigh 1680 grams if it was 9000 meter long. The Denier count is not an exact measurement of the strength and durability of the fabric - there are of course other factors as well - but it is widely regarded as a good indirect measurement.

THE COLLECTION

Explore the range

Engineered for pros and craftsmen, our brand-new collection of tool bags combines ultimate functionality with rugged design.

Ergonomic Tool Carrier

Your New Ergonomic Companion

This is an open, soft sided toolbox, designed for ergonomic carrying. The back of the bag has an ergonomic curve that gives your leg better room to move, and you don't have to lift the bag as far away from your body when you walk. It also features a robust molded base that prevents the bag from tipping over, protects the bottom from moist, dirt and wear - and keeps your tools dry. The front and back of the bag have different heights, giving you a good overview and access from the front and more support for your tools on the back. It has a large centre compartment, lined with pockets and toolholders. There are medium sized pockets with lids and zippers for safe storage of sensitive equipment.

It also features a tape measure holder, pen holders, a key chain holder and elastic loops for smaller tools. One of the side pockets

contains a rain and dust cover. It's made from a rip stop fabric and protects the bag and its content from bad weather, dust and dirt.

The handle is extra high, making it easier to reach down and pick up the bag. It has a long rubber covering so you can grip comfortably along the entire handle and balance an unevenly loaded bag. The handle folds away for easy access and overview. The adjustable shoulder strap has an extra-long padding with an anti-slip surface for comfortable and easy carrying.

- 25 pockets and tool holders
- Dimensions: 42 x 26 x 27 cm
- Article number: 590110

Open-top Tool Carrier

A classic tool bag the Hultafors way

This is a classic, all purpose, soft sided tool box. It has an open top with lower sides for easy access and overview. The large centre compartment is lined with pockets and toolholders. Alternating red and black fabric makes it easier to tell different tools and pockets apart. There are medium sized pockets with lids and zippers for safe storage of sensitive equipment. You'll also find a holder for long and narrow tools such as spirit levels and hand saws on the outside of the bag. It also features an external tape measure holder, an electrician tape strap, pen holders, a key chain holder and elastic loops for smaller tools such as screwdrivers. The handle is extra high, making it easier to reach down and pick up the bag. It has a long rubber covering so you can grip comfortably along the entire handle and balance an unevenly loaded bag.

- 35 pockets and tool holders
- Dimensions: 54 x 31 x 29 cm
- Article number: 590140

Molded Base Tool Backpack

Durable and hands free

An Ergonomic, heavy duty, all-purpose tool backpack with a robust molded base. The molded base prevents the bag from tipping over, protects the bottom from moist, dirt and wear - and keeps your tools dry. It has two large compartments which zippers fully open. This allows you to fold down the outer side completely, giving you maximum overview and access. The compartment closest to your back has a padded pocket for laptop, tablets and documents. It can fit laptops up to 15". It has medium sized pockets with lids and zippers, an external water bottle pocket, an external tape measure holder, pen holders, a key chain holder and elastic loops for smaller tools such as screwdrivers.

The adjustable shoulder straps have an anti-slip surface and a 3D-shape which follows the curvature of the body for optimal ergonomic carrying. Both the back of the bag and the shoulder straps have ventilated padding for cool and comfortable work. On the top of the bag, you'll find two comfortable rubber handles, they allow you to easily fold up the back and front when you need to quickly reposition the bag.

- 42 pockets and tool holders
- Dimensions: 37 x 34 x 48 cm
- Article number: 590120

Tool Backpack

Handsfree mobility

An ergonomic, all-purpose tool backpack with two large, zippered compartments. Both compartments' zippers fully open which allows you to fold down the outer side completely, giving you maximum overview and access. Through a zipper on the side, you can also access a third compartment between the two large ones - it is padded and perfect for storage of laptops, tablets and documents. It can fit laptops up to 15".

On the front of the bag, you'll find a large pocket with a buckled strap for securing large or unruly equipment, materials, cables and components. The bag has medium sized pockets with lids and zippers and straps for securing power tools and chargers. The bag also features an external tape measure holder, pen holders, a key chain holder and a small loop for attaching a carabiner. The adjustable shoulder straps have an anti-slip surface and a 3D-shape which follows the curvature of the body for optimal ergonomic carrying. Both the back of the bag and the shoulder straps have ventilated padding for cool and comfortable work. On the top of the bag, you'll find two comfortable rubber handles, they allow you to easily fold up the back and front when you need to quickly reposition the bag.

- 48 pockets and tool holders
- Dimensions: 38 x 33 x 43 cm
- Article number: 590130

Tool Bucket

Robust and versatile carrying

Ergonomic tool bucket made of robust PP-plastic material for versatile use such as carrying tools or necessities.

The rear side is shaped in order to improve the ergonomics when carrying the product. The handle is comfortable and could be placed in an upright position in order to simplify the next lift of the tool bucket. The tool bucket is stackable and equipped with a measuring scale on the inside.

- Holes for attaching a shoulder strap
- Measuring scale on the inside
- Can take a burden of 100 kilograms
- Dimensions: 30,4 x 43,3 x 23,9 cm.
- Article number: 590101

Trolley Tool Bag

Why carry when you can roll

A large and versatile trolley tool bag, perfect for any craftsman who need to bring an extensive set of tools to the worksite. It's designed to carry power tools, hand tools, electronics, gadgets, bits and bobs – everything you need.

Large treaded wheels and a telescopic, aluminium handle allows you to easily pull it along over most surfaces. The bag consists of one single large compartment lined with pockets and tool holders. The bottom is clad in a red fabric making it easier to see what's in it. The zippered main compartment has a flat lid with a document pocket. You can stack additional equipment on top of the bag and there's a strap for fastening the lid in an open position. The bag also features external pockets, comfortably padded handles and a set of straps for attaching spirit levels or other long and narrow tools.

- 33 pockets and tool holders
- Dimensions: 53 x 37 x 47 cm
- Article number: 590170

Electrician's Tool Pouch

A small bag with big flexibility

An ergonomic tool pouch for electricians and technicians. It is shaped like a small messenger bag - designed to be worn while you work, keeping your tools within reach. The back is slightly curved and padded for an optimum fit. Loops on the back also allow you to attach it directly to your belt so you can wear it on your hip (fits belts up to 60 mm wide).

The zippered lid keeps your equipment safe when not in use and the lid folds away on the outside making it easy to keep the bag open for easy access to the tools. It has one main compartment with multiple pockets to help you organize electrician's tools and testers. It also features an external tape measure holder, an electrician tape strap, a hammer holder, pen holders, a key chain holder, loops for smaller tools such as screwdrivers and a small loop for attaching a carabiner.

- 21 pockets and tool holders
- Dimensions: 31 x 15 x 39 cm
- Article number: 590180

Tool Bucket Organizer

Organize your Tool Bucket

The Tool Bucket Organizer is an insert with multiple pockets - exclusively developed to fit the Hultafors Tool Bucket. The inside is lined with small and mid-size pockets. On the outside you'll find a holster for a cordless drill and larger pockets, with and without lids. It will help you to organize your tools along the sides of the bucket, preventing smaller things from ending up at the bottom and giving you a better overview of your equipment.

- Developed to fit the Hultafors Tool bucket
- 31 pockets and tool holders
- Article number: 590102

Electrician's Tool Bag

For the professional Electrician

An open top, soft sided tool bag with a square footprint that provides great stability in all directions, for example during transportation in a car. The main space of the bag is divided into 3 equally sized compartments lined with pockets and tool holders. Alternating red and black fabric makes it easier to tell different tools and pockets apart. The dividing sections are riveted onto the main body of the bag giving it extra rigidity and durability.

It has medium sized pockets with lids and zippers for safe storage of sensitive equipment and a transparent pocket making it easy to find what you are looking for. It includes an assortment box for storage of screws, fittings and other loose components. It has 12 compartments and a lid, measures 225 x 170 x 60 mm and fits in a large pocket on the outside of the bag. The bag also features an external tape measure holder, an electrician tape strap, a key chain holder and elastic loops for smaller tools such as screwdrivers.

- 34 pockets and tool holders
- Dimensions: 34 x 31 x 47 cm
- Article number: 590150

Technician's Tool Bag

Get organized and efficient

A closed and compact tool bag, designed for technicians, maintenance workers and electricians. It has 3 compartments that closes with zippers, so people can't see or access your equipment - and your tools won't fall out, get caught on things or damage interiors.

The centre compartment has an extra-large, "big mouth" opening with a framing that allows you to leave it fully open while you work. The two side compartments are lined with pockets and tool holders. Alternating red and black fabric makes it easier to tell different tools and pockets apart. The side compartments zippers all the way down which allows you to fold them completely open, giving you maximum overview and access. The bag has medium sized pockets with lids and zippers for safe storage of sensitive equipment. It also features an external tape measure holder, a key chain holder, pen holders and transparent pockets that makes it easy to find what you are looking for.

The ergonomically designed handles with rubber grips are attached far down along the sides of the bag for maximum stability and durability.

- 48 pockets and tool holders
- Dimensions: 36 x 27 x 35 cm
- Article number: 590160

Zippered Tool Bags

For all the small things

A set of two small tool bags for storage of special tools, equipment or material like screws, tackers, bits and other small items that needs organizing or extra protection. Each bag has 3 storage spaces, one large compartment and 2 smaller pockets. The bags also feature a textile loop which makes them easier to carry or hang from a bag, belt or a hook.

- Dimensions: 30 x 2 x 22 cm & 25 x 2 x 18 cm
- Article number: 590190

Maintenance Pouch

An allround tool pouch

Have all your favorite tools close at hand with this smooth maintenance pouch. It will keep your tools organized with 14 pockets and tool holders. This pouch has room for it all, including tape sling and a sleeve that holds a flashlight or voltage tester for easy access. It's a premium quality pouch made of durable 1680 Denier ballistic polyester fabric. It's easy to attach to your belt and stays in place throughout your day.

- 14 pockets and tool holders
- Electrical tape strap
- Made of 1680 Denier ballistic polyester
- Fits belts up to 50 mm
- Dimensions: 28 x 20 x 10 cm
- Article number: 592030

Technician's Pouch

A flexible tool pouch for your workday

If you need an extra pocket for your must-have tools, this is what you are looking for. You can easily add it to your belt with a snap closure or slide the padded flap in your pocket and it will stay there securely. The choice is yours. It has 8 pockets and tool holders including an electrical tape strap. The large pocket is big enough to fit the most important tools for your day. Made of our durable 1680 Denier ballistic polyester.

- 8 pockets and tool holders and a tape strap
- Rear flap and snap closure for easy attachment
- Made of 1680 Denier ballistic polyester
- Dimensions: 31 x 17 x 8 cm
- Article number: 592020

Ziptop Utility Pouch

Unzip your tools

The medium-sized ziptop utility pouch has a main compartment that you can close with double-pull zippers. It secures your tools and prevent smaller pieces from falling out. Made in the durable 1680 Denier ballistic polyester fabric. It includes a tape measure clip and an electrical tape strap for easy access.

When you are done for the day, you just close the zipper and detach the pouch, knowing everything is secure and will stay there.

- 18 pockets and tool holders and a zippered lid
- Snap-back that keeps lid out of the way, for easy access
- Large front panel pocket, tape strap and clip for measuring tape
- Fits belts up to 50 mm
- Dimensions: 32 x 20 x 10 cm
- Article number: 592040

Spirit Level Bag 180 cm

Protect your precision

This padded sleeve will make sure to protect and guard your spirit level during transport and storage. The sensitivity in a spirit level lies in the crush proof vials and the profile. So slip your favorite spirit level into the padded sleeve and you are good to go knowing it will be protected from accidental bumps and drops during transport and storage. It's a reliable protection that prolongs the lifespan of your spirit level

- Padding that protects your spirit level
- Rubber handle for comfortable carrying
- White area for tagging the bag
- Dimensions: 188 x 23 x 4 cm
- Article number: 590200

Hammer & Tool Holder

More than a hammer holder

A tool holster with a sturdy metal hammer holder and a pocket for utility knives, pliers or other small tools that you always want to keep close at hand. You can hang it from your belt via a loop at the top and it fits belts up to 50 mm wide.

- Dimensions: 9 x 7 x 20 cm
- Article number: 592010

Hammer Holder

Comfortable and ergonomic

Smart hammer holder with ergonomic design. Ergonomically-angled design prevents the hammer-handle from striking your leg when walking, or getting in the way when bending down on your knees. The angle also makes it easy to access the hammer. Easy to attach to trousers, a belt or a tool vest. Made in extra strong, yet flexible thermoplastic that will not damage delicate surfaces.

- Ergonomic design for comfortable use
- Easy access to the hammer
- Easy to attach to trousers, belts or tool vest
- Works with most hammers on the market
- Made in extra strong, yet flexible thermoplastic
- Article number: 592000

Tool Roll LTR

Store your favourites in style

Store and protect your favourite tools in style with our leather tool roll. It protects both you and your tools. The layout makes it easy to get a good overview of your tools and to keep them organized.

It fits an array of different tools such as chisels, screwdrivers, knives and wrenches. It has 12 pockets that are riveted for extra durability, they can hold at least six tools, or more depending on the size. It can easily be rolled up and secured with a leather string, making it compact and easy to bring with you and to store away. The roll measures 350 mm in length and approximately 100 mm in diameter, depending on the content.

- 12 riveted pockets, 50 x 120 mm
- Size spread out: 600 x 410 mm.
- Size roll: 350 x diameter 100 mm
- Article number: 390681

Rubber Handle

The handle has a long rubber covering so you can grip comfortably along the entire handle and balance an unevenly loaded bag.

Shoulder strap

Extra-long padding with an anti-slip surface for comfortable and easy carrying.

Rain & Dust Cover

The side pocket contains a rain and dust cover so you can protect the bag and its content from bad weather, dust and dirt.

Molded Base

Prevents the bag from tipping over, protects the bottom from moist, dirt and wear and keeps your tools dry.

Ergonomic Tool Carrying

Explore our open, soft sided tool bag, designed for ergonomic carrying. The back of the bag has an ergonomic curve that gives your leg better room to move, and you don't have to lift the bag as far away from your body when you walk.

25 Pockets

It has a large centre compartment, lined with pockets and toolholders. It features a tape measure holder, pen holders, a key chain holder and elastic loops for smaller tools.

Ergonomic Curve

The back of the bag has an ergonomic curve that gives your leg better room to move.

Easy Access

The front and back of the bag have different heights, giving you a good overview and access from the front and more support for your tools on the back.

1680D Fabric

The bag is made from our extremely durable ballistic polyester with a thread density of 1680 Deniers.

FEATURES

Durability

No bag is stronger than its weakest link, therefore we've tried to make sure that every single detail will endure. Some are hidden and some are small but together they make a mighty impact.

- Hidden inside the fabric there are panels and framing that gives the bag extra sturdiness and durability.
- Bar tacks are tight zigzag stitches, strategically placed in areas that experience high levels of stress or tension, such as pocket openings. By securing multiple layers of fabric together, bar tacks distribute the stress evenly, reinforce the design in critical places and prevents the fabric and seams from tearing or unravelling.
- The zippers are nylon coil zippers – very durable with large metal pullers that are easy to grip, even with gloves on.
- The shoulder straps are attached with metal carabiners and rings to make sure that they can hold more than most people can carry.

Tested for the real world

Our bags have undergone a rigorous testing program to ensure that they live up to the Hultafors standard. The bags are tested with heavy loads, for wear and tear, and for cold climates. We have tested all the materials and components to make sure that these bags will be long lasting companions for your tools.

Features

Engineered for pros and craftsmen, our brand-new collection of tool bags combines ultimate functionality with rugged design. Crafted from an extremely durable, water-repellent 1680D polyester, our Tool Carriers are the fortress your tools deserve. Stains, dust, mildew—our bags resist them all, ensuring your gear remains organized and protected.
