LIGHTING SOLUTIONS
FOR HIGH PERFORMANCE

2025

Work lights of the future

The sophisticated SCANGRIP work lights are second-to-none and made for real professionals who need the best tool they can get for the task. The full product line-up covers all kinds of work light solutions with superior quality across the entire range. These are lights made for work and built to last.

Latest technologies for best performance

SCANGRIP constantly push back the boundaries of LED lighting and battery technology, creating new cutting-edge work lights. We always reach for that extra brightness, that extra operation time, those little touches that make a real difference when you need the best work light you can get. We guarantee to provide you with only premium products for optimal performance.

Extreme durability and functional design

SCANGRIP work lights are extremely durable and made to do the job again and again. The entire product line is sturdy and endures the really demanding working environment which expose professional workers and their tools to rough, wet, and dirty conditions. The lights are covered by a high IP protection level to resist even outdoor use in all kinds of weather.

Extended warranty

Our lights meet the highest quality standards. They are so good that we offer a warranty extension of 3 years for all SCANGRIP work lights and 5 years for our FOR LIFE work lights. Because we stand by the products we offer.

Reinventing the future of LED work lights

We are taking an ambitious strategic step forward by committing to develop LED work lights with minimized environmental impact while at the same time improving energy efficiency and expanding the lifespan.

The FOR LIFE concept represents a pioneering approach that focuses on reinventing the design and functionality of LED work lights and optimizing energy efficiency to the utmost. With sustainability as the focus point, we have rethought the traditional standards, pushing the boundaries to extend the lifespan of our lighting solutions.

13 of our top-selling work lights have undergone a complete transformation when it comes to visual design and come with a range of enhanced features that provide numerous benefits to the end-user. Read more about the enhancements on page 4.

MAG – Europe's most best-selling work lights even further improved

// The rechargeable hand-held work lights everybody knows – and loves! With significantly improved light output, battery upgrade and even more functionality, the popular MAG work lights offer great value in every workshop operation.

The MAG series consist of universal and powerful multi-purpose work lights that all professional users must have!

- Significantly improved with higher lumen output
- Integrated work light and flashlight functionality in one
- Strong built-in magnetic holders and retractable hooks for hands free operation
- New stepless dimmer function

// MAG PRO WIRELESS - more flexibility with wireless charging

NEW

MAG PRO comes in a version with the option of wireless charging using the accessory SCANGRIP CHARGING PAD 03.5928, which can be purchased separately. The charging pad offers a convenient and uncomplicated way to charge your work light without the need for extra cables.

The charging pad is designed so that the work light automatically "slides into place" over the powerful magnets on the back. This means that MAG PRO WIRELESS can be charged also in a vertical position. The charging pad is prepared for fixed mounting, enabling efficient use of space in the workshop.

MAG PRO WIRELESS

£64.90 / €74.90

SCANGRIP

SINCE 1906

// Updated and more powerful than ever

Taking advantage of the latest high performance LED technology, the MAG range comprises extremely powerful work lights providing significantly improved light output. Compared to the previous MAG 3 and MINI MAG, the new MAG PROs are upgraded to IP54 and have a new design with battery indicator on front.

// Multi-purpose with cool design

The characteristic and elegant design of the MAG hand lamps provides an ergonomic and user-friendly grip. Place anywhere you want with the strong built-in magnetic holders and retractable suspension hooks to obtain complete flexibility. The lamp head is flexible and tilts up to 180 degrees.

// Stepless dimmable

MAG PRO, MINI MAG PRO and MAG PEN 3 are upgraded with a stepless dimmer function in the range of 10 to 100 % that enables you to adjust the light output to the work task.

Inside the cabin the BONNET LIGHT may also be used as work light either mounted by the telescopic holder or mounted onto the windscreen by the flexible arm with suction cup.

NOVA BONNET – *powerful bonnet light providing maximum flexibility*

// The NOVA BONNET light provides you with increased flexibility and bright illumination of the engine bay. With the NOVA BONNET, you will have a bonnet light and a flexible NOVA R hand lamp in one single solution.

Use the NOVA BONNET inside the cabin

Use NOVA R separately for inspection work

// Rechargeable and dimmable COB LED work light

Easily mount the NOVA R on the bonnet light via the enclosed bracket, slide it from side to side to position the light and adjust the light output or simply use the hand lamp for inspection work.

Featuring the latest high-performance COB LED technology, NOVA R provides up to 2000 lumen with a uniform and even illumination. The light dimmer function makes it possible to adjust the light into five different levels, and due to the upgraded battery capacity, you can use the lamp for up to 20 hours depending on the light output.

The NOVA BONNET is supplied with an adjustable telescopic holder (1.2-1.7 m) with soft-padded hook ends providing a firm and scratch-free grip on the vehicle. The holder is compact and equipped with a metal bracket. The powerful integrated magnets of NOVA R provides flexible mounting on the bracket. Inside the cabin, the NOVA BONNET may also be used as work light mounted by the telescopic holder.

// High flexibility

The simple and user-friendly design makes it easy to mount and dismount the NOVA R, which allows you to use the lamp for inspection work. NOVA R is easy to carry and is ergonomically designed for a good grip on the handle.

HEADLAMPS *for professionals*

// Powerful, hands-free lighting solutions for a wide range of application areas.

- Rechargeable
- Illuminates your entire workspace
- Long duration time
- Easy to operate
- Sensor function with touchless on/off switch

Unlike traditional headlamps that only provide a narrow beam, the I-VIEW and ZONE headlamps are designed to provide optimum work light illuminating your entire work area. With advanced LED technology, these headlamps offer strong and uniform illumination, sparing you from the need for frequently repositioning your head to light up your workspace.

Overall, all the headlamps are comfortable to wear throughout the day and perfect for demanding tasks that require the use of both hands.

// ZOOM - Rechargeable headlamp with 3-step function

ZOOM is a small, compact yet very powerful headlamp providing 220 lumen and with a remarkable low weight of only 100 g.

The beam angle can be adjusted from 10° to 60° providing a beam distance up to 80 m.

The light output is adjustable in three steps and a new feature is the »READING MODE setting«, which provides just enough light to read and enables 19 hours of operating time.

ZOOM comes in a compact design and the light can be tilted 45° to obtain the optimum lighting angle.

HEADLAMP

STAR – work light and floodlight in one

// STAR is the missing link between a work light and a floodlight. It is a new multifunction work light that does it all!

- Extremely powerful illumination, up to 1000 lumen
- Rechargeable up to 5 h operation time
- Waterproof IP65
- Ergonomic design for a comfortable, firm hand grip
- Flexible handle for multifunctional positioning and application
- Sturdy handle with built-in magnet
- Direct mounting on the SCANGRIP TRIPOD
- Durable housing made of shock-resistant plastic material
- Built-in powerbank

// Multifunctional work light

STAR is designed to be the work light that does it all. The lamp is ergonomically designed to be used as a hand held work light. Extending the position of the handle, the lamp transforms itself to be a searchlight.

// Handy floodlight

Due to the extremely powerful light output, STAR is also applicable for illumination of a larger working area, in spite of its small size compared to other floodlights. The handle is designed for direct mounting on the SCANGRIP TRIPOD.

// Flexible positioning

Due to the flexible handle the STAR can stand in different positions to obtain the optimal lighting angle for a specific work task. The handle is also clickable in fixed position to serve as a hook for suspension. Using the powerful built-in magnet in the handle the STAR can be placed in flexible positions on any metalized surface.

// Powerbank

Built-in power bank with USB outlet to charge mobile devices.

// Small-sized with powerful illumination

NOVA MINI is the perfect choice for professionals seeking a portable lighting solution that can easily accompany them on their tasks. Its compact design and impressive 1000 lumen output, which is exceptional for its size, make it suitable for a wide range of work applications, especially in confined spaces. With an IP65 rating, it is designed to endure demanding work environments.

// SMART GRIP 4-in-1 system

The lamp is supplied with a special, patented SMART GRIP 4-in-1 system that integrates several multi-functions in the same unit. The ring is based on the functionality you know from e.g. mobile phones which makes it easier and more convenient to keep the lamp in your hand for a long time. It relieves the muscles and increases ergonomics.

The clip is designed to fit the work belt and carry the lamp the entire day, and when both hands are needed for a task, the strong built-in magnet can be used for flexible positioning. Furthermore, SMART GRIP can be used as a stand on any available surface.

STANDS and SUSPENSIONS

ORIGINAL
SCANGRIP
SINCE 1906

// Designed for direct mounting of work lights without bracket.
Made of durable and sturdy powder coated steel for both indoor and outdoor use.

// High stability tripod

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area.
The SCANGRIP TRIPOD is extendable from only 1.35 m up to 3 m which gives you complete flexibility to position the light in the requested height.

The stable construction of the SCANGRIP TRIPOD 3M makes it safe even when fully extended. It is supplied with anchor points that provide an opportunity for extra stability if the tripod is exposed to strong wind or standing on an uneven surface. To increase safety when in use, the cable of the lamp can be fixed in the safety clips placed on each separate leg.

// Lightweight TRIPOD with QUICK RELEASE function

With its lightweight and extremely handy design, the SCANGRIP TRIPOD 2M is indispensable for stationary positioning of the work light for illumination in a specific working area. The tripod is extendable from 0.9 metre up to 2 metres, which gives you complete flexibility to position the light in the requested height. When mounted on the tripod the light can be tilted to provide the optimum beam angle.

Featuring a compact design and QUICK RELEASE function, it is easy and convenient to carry the tripod and set it up where illumination is needed. The tripod is extremely durable and can be applied for both indoor and outdoor use. The stable construction makes it safe even when fully extended. It is made of black painted aluminium.

SITE LIGHT – *high-performance construction site lights*

// SCANGRIP presents new, powerful SITE LIGHT work lights that are made in Denmark and provide extremely high light output at a very attractive price.

The SITE LIGHTs feature active cooling and have a long lifetime. Available in two variants providing 40.000 lumen and 80.000 lumen.

- Powerful illumination with wide beam angle
- Light dimmable in 4 steps
- BLUETOOTH light control
- Compact and low weight
- Waterproof (IP65) for all kinds of outdoor weather conditions

SITE LIGHT 80

£929.90 / €1069.90

Bluetooth®

BLUETOOTH - Light control app

- Dimmer light output into 4 levels
- Switch on/off
- Group control function, up to 4 lamps
- Assign pin code

Compliant with iPhone 5 or higher/Android 5.0 or higher. Go to iTunes App Store to download the app or download the app from scangrip.com

// Powerful illumination and BLUETOOTH light control

Based on the newest state-of-the-art LED technology, the SITE LIGHTs provide an extremely high light output and a wide 120° beam angle, ensuring super bright illumination of a large work area. The dimmer function enables you to adjust the light in four different levels, and by using the BLUETOOTH light control app, you can turn on/off the work light and adjust the light remotely through your mobile device. When the work lights are mounted on high masts, this feature reduces the power consumption on an everyday basis as you only use the amount of light necessary to do the job.

// Compact design for easy mounting

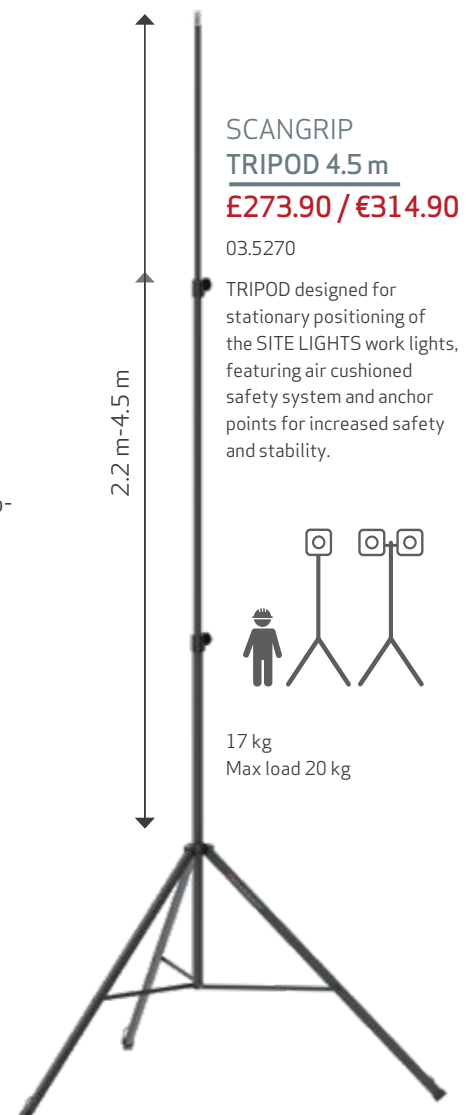

The SITE LIGHTs are designed with a built-in handle for easy carrying and mounting on tripod and masts. They are extremely compact and low weight compared to other solutions on the market, which makes the mounting of the work lights more convenient. The SITE LIGHTs come with

10-metre cable and include a DIN14640 connection adapter with bracket for mounting on a tripod.

// Built to do the job at the construction site

The SITE LIGHTs are completely dust and waterproof (IP65) and tolerate all kinds of weather conditions from -25 to +40 °C. Featuring high-quality components and active cooling, the work lights have a long lifetime and keep a high performance level throughout the day.

ROPE LIGHT - 25 m flexible rope light providing 20.000 lumen

ORIGINAL
SCANGRIP

SINCE 1906

// Illuminate your surroundings and stay safe on the worksite with a practical and legal rope light.

- EMC certified rope light with built-in power supply
- Maximum safety with low voltage (48 V DC)
- No risk of electrical shock
- Made of durable and heat-resistant silicone

NEW

// Maximum safety

ROPE LIGHT runs on low voltage (48 V DC), which means that there is no risk of electrical shock if the rope should be accidentally pinched or cut. This distinguishes ROPE LIGHT from all other rope lights on the market, which use 230 V power directly connected with the risk of fatal shocks. Only light ropes operated through a power supply are legal. ROPE LIGHT is made of heat resistant silicone and fully flexible, even in extreme cold down to -20 °C. With IP65, the rope light is suitable for use in humid working environments.

ROPE LIGHT is flicker-free, which means that there is no annoying flicker effect that can be a nuisance during the work and, in the worst case, cause misjudgement of rotating tools. ROPE LIGHT is EMC certified and in compliance with all applicable legislation in the area (EMC directive 2014/30/EU).

// Easy and convenient connection

ROPE LIGHT is delivered on an impact-resistant drum with a practical carrying handle. The power supply is built-in with a fixed 1.5 m connection cable, making it easy to connect to a standard power socket. To avoid overheating, always unwind the light rope completely from the drum before connecting the power. For convenient storage, the power cable can be wrapped around the drum under the light rope when not in use.

Durable silicone bendable down to -20 °C and passed 650 °C glow-wire testing

High IP for use in moist environment

Flicker free

FLEX WEAR – flexible work light designed to wear

// Indispensable little companion you can take with you everywhere

FLEX WEAR is a small wearable flexible work light designed with a 2-step main light providing as much as 150 lumen and a spotlight providing 75 lumen. It increases safety and working comfort making you visible moving around and providing light to illuminate your workspace. It can also be used as a pocket light with the built-in clip, as an inspection light or positioned fixed with the built-in magnet. The design of FLEX WEAR is smooth, compact and lightweight, only 42 g.

FLEX WEAR
£26.90 / €30.90

Use as flashlight

Built-in magnet

Clip onto your clothes

// FLEX WEAR including headband and cap mount

With the accessories included in the FLEX WEAR KIT it can be used as a headlamp or mounted on a cap. Use the spotlight for a long-distance light wearing it on the side of your head. Fixed on the headband or cap mount FLEX WEAR provides total flexibility to obtain the best possible lighting angle since it can be turned 360° around both axes.

- Clip onto your cap
- Use as a headlamp
- Clip onto your clothes
- Use as a flashlight

FLEX WEAR KIT
£36.90 / €41.90
03.5811

FLEX WEAR is 100 % flexible work light with numerous areas of application. Use it exactly where you want: in your chest or pant pocket with the built-in clip, on your cap with the special mounting device or use it as headlamp mounted on the headband. FLEX WEAR can also be used as a flashlight for inspection or positioned and fixed with the built-in magnet to illuminate your work area.

FLASHLIGHT *series*

// SCANGRIP provides the strongest and most comprehensive range of LED work lights on the market. We are now proud to present an upgraded and re-designed flashlight series providing extremely high light output and improved functionality for an even better user experience.

The new flashlights are available both as rechargeable and with batteries, providing brand-new features and accessories to increase work efficiency.

- BOOST MODE
- Practical clip-on holster for the work belt
- One-hand operated magnetic switch
- Higher lumen output
- Long operation time

FLASH series with batteries

// The new durable flashlight series with Alkaline batteries is designed for the rough and demanding work environment providing high-quality flashlights for all types of inspection tasks.

Embracing a more sustainable mindset

SCANGRIP is taking a strategic step forward to reinvent how professional LED work lights are made and how they impact the environment.

The FOR LIFE concept marks a new approach to designing LED work lights that are more long-lasting. As part of this sustainability focus, products marked with the FOR LIFE symbol have undergone a complete transformation when it comes to visual design and enhanced features.

Recycled materials have been incorporated wherever physically possible in both the product design and packaging. The packaging is made from 100 % recycled materials and completely free of any plastic parts. These changes represent just the first steps in our ongoing dedication to innovation and environmental responsibility.

Net weight	278 g	840 g	1.98 kg	2.58 kg
Price	£64.90 / €74.90	£92.90 / €104.90	£184.90 / €209.90	£219.90 / €249.90

NOVA cable series

	NEW NOVA 4	NEW NOVA 6	NEW NOVA 12
Product number	03.6202UK	03.6203UK	03.6206UK
Light source	High efficiency multi-LED design with 90 LEDs	High efficiency multi-LED design with 120 LEDs	High efficiency multi-LED design with 200 LEDs
Luminous flux, lumen	400-4000	600-6000	1200-12000
OPTILight setting	200 lux@2 m	200 lux@2 m	200 lux@4 m
Adjustable light output	6 levels	6 levels	6 levels
Beam angle	110°	110°	110°
CRI	Ra > 80	Ra > 80	Ra > 80
CCT	5700 K	5700 K	5700 K
Operating time max./min. lumen, h	-	-	-
Operating time OPTILight, h	-	-	-
Battery	-	-	-
Protection class	IP67	IP67	IP67
Rough service	Yes	Yes	Yes
Impact protection	IK07	IK07	IK07
Impact resistance	2 m	2 m	2 m
Cable	5 m/H07RN-F 3G1.0 mm²	5 m/H07RN-F 3G1.0 mm²	5 m/H07RN-F 3G1.0 mm²
Operating voltage AC	100-240 V	100-240 V	100-240 V
Charging voltage/current DC	-	-	-
Power consumption	29 W	41 W	81 W
Charger incl.	-	-	-
Operating temperature	-25 to +40 °C	-25 to +40 °C	-25 to +40 °C
Dimensions	235 x 80 x 235 mm	273 x 87 x 270 mm	310 x 105 x 305 mm
Net weight	2.42 kg	3.04 kg	4.62 kg
Price	£119.90 / €134.90	£134.90 / €154.90	£244.90 / €279.90

SITE LIGHT series

	SITE LIGHT 40	SITE LIGHT 80	NEW ROPE LIGHT
Product number	03.5268	03.5269	03.5815
Light source	432 SMD LEDs	864 SMD LEDs	120 SMD LEDs /m
Luminous flux, lumen	10000-40000	20000-80000	20000
Adjustable light output	4 levels	4 levels	No
Beam angle	120°	120°	120°
CRI	Ra > 80	Ra > 80	Ra >80
CCT	6000 K	6000 K	6000 K

SCANGRIP is Europe's leading manufacturer of work lights for professionals providing the strongest and most comprehensive ranges of work lights with the latest LED lighting technology available on the market.

SCANGRIP is innovation from Denmark and receives strong recognition in the marketplace for its product design, and the products are known for their high quality.

SCANGRIP strives for perfection, and is continuously optimizing and improving light output, battery capacity, design and ergonomics, durability, user-friendliness, and functionality. The aim is to set new standards for professional work lights.

SCANGRIP was established in 1906 and has a long, impressive history of manufacturing high-quality hand tools and work lights for the industrial, construction, and automotive sectors.

SCANGRIP is part of Hultafors Group - a global company offering a unique portfolio of premium brands within personal protection, tools, and other equipment for discerning craftsmen. Together, we are on a mission to create a better day for professional users.
