Effective from  
1st April 2024

# SWEDISH DESIGN SINCE 1883

Just ask any tradesperson. If it's power and precision you're after, it has to be Hultafors Tools. Hand tools that really give you the best possible performance, safety and precision. Tools that can handle tough applications, last for a long time and above all feel right in your hand. The reason is actually quite simple. When we develop our products, we do it together with professionals. We understand their work situation and listen to their needs. They remain part of the product testing process until everyone is satisfied with the results. This is the only way for us to be absolutely sure that our tools actually work in practice and assist you in your work.

Our expertise on the everyday working life of tradespeople is somewhat unique. As is our long-standing experience. It all began in 1883 when Karl-Hilmer Johansson Kollén designed the now world-famous folding rule. Over the ensuing 140 years, we have continued to develop and manufacture hand tools for tradespeople.

With the acquisition of Fisco, Hultafors proudly offers world renowned measuring tapes as part of the hand tool range.

## A unique product family

HULTAFORS **GROUP** offers a dynamic range of premium brands to rely on – for distributors and tradespeople alike. Each brand within the Group is united with a common passion: to keep tradespeople at the forefront in terms of functionality, safety, protection, and overall productivity.

Hultafors Group is proud to present sixteen leading brands that together offer a unique product family for professional tradespeople.

Each brand represents expertise in its area and brings unparalleled knowledge and insight into the unique on-the-job challenges encountered by tradespeople. This makes it possible for us to meet, even anticipate, evolving demands by designing innovative state-of-the-art products that make the tradespeople's workday safer, easier, and more productive.

Excelling in brand-driven product categories within the industry and construction equipment sectors, we offer customers and users a best-in-class experience. By using our high value products as well as benefitting from brands built around their needs, tradespeople can be at the forefront every day and take great pride in their work.

# SQUARES

**NEW!**  
FOR 2024

The Hultafors squares range is now better than ever! 2024 sees the addition of four models to our offering: a professional model, a lightweight model, the successor to our adjustable mitre square, the Quattro 270 and the all-new Quattro bevel square.

Both the professional and lightweight models resemble classic squares with black handles and 45mm wide steel blades. Users will benefit from new scribing notches on the professional and Quattro squares – a long row of holes in the middle of the blade that allows for cutting or drawing parallel along an edge - while the lightweight model lives up to its name thanks to a thinner blade.

The new Quattro 270 and Quattro Bevel squares are packed with new features, including a rotatable blade with fixed positions for 45°, 90°, 135° (180°, 225° and 270°). Both are completely foldable and fit neatly into your pocket. The blade can now rotate three-quarters of a turn, offering two positions where the blade is at a 90-degree angle. This provides the option to choose between a sharp outer corner, just like a regular square, and a rounded

outer corner. A useful feature where construction plastic or foam protrudes and obstructs the corner you are working on.

By turning the blade 270° to the back of the stock when working with thin sheet metal, the handle also performs as a block and straight edge to work against – preventing the material from sliding into the slit.

Our new Quattro bevel square is an innovative adjustable square that also functions as a bevel square and an angle finder. A robust joint and a 25cm long blade of 1mm thick, high-strength stainless steel provides a very durable design that can withstand tough working environments and will last a long time. Carefully selected materials and manufacturing techniques such as a CNC-milled stock and a blade cut with a precision laser provide high accuracy; angle tolerance  $\pm 0.06^\circ$  ( $\pm 1\text{mm/m}$ ). The 45mm wide is perfect for working with standard stud dimensions, with a centre for easy marking.

The new squares form part of Hultafors' sustainability work. We have invested in completely new production equipment for the squares which are manufactured in one of our four European factories.

- Professional and Lightweight squares available in three sizes: 205mm, 255mm, 305mm.
- Laser-etched millimetre graduation with very high contrast and abrasion resistance.
- Quattro: Adjustable with fixed positions for 45°, 90°, 135°, 180°, 225° and 270°.

### ADJUSTABLE BEVEL SQUARE - QBS 25

Adjustable with fixed positions for 45°, 90°, 135°, 180°, 225° and 270°. Aluminium stock and stainless steel blade.

Ref. no.	Model	Length	Tolerance	Unit Price
256023	QBS 25	330mm	$\pm 0.06^\circ$	49.25

### ADJUSTABLE MITRE SQUARE - QUATTRO 270

Adjustable with fixed positions for 45°, 90°, 135°, 180°, 225° and 270°. Aluminium stock and stainless steel blade.

Ref. no.	Model	Length	Tolerance	Unit Price
253120	QUATTRO 270	300mm	$\pm 0.06^\circ$	42.99

### PROFESSIONAL SQUARE

Aluminium stock and stainless steel blade.

Ref. no.	Model	Length	Tolerance	Unit Price
260303	S 20 P	205mm	$\pm 0.03^\circ$	31.99
260403	S 25 P	255mm	$\pm 0.03^\circ$	33.99
260503	S 30 P	305mm	$\pm 0.03^\circ$	36.99

### LIGHTWEIGHT SQUARE

PB/ABS handle and stainless steel blade.

Ref. no.	Model	Length	Tolerance	Unit Price
310303	S 20 L	205mm	$\pm 0.06^\circ$	13.59
310403	S 25 L	255mm	$\pm 0.06^\circ$	14.99
310503	S 30 L	305mm	$\pm 0.06^\circ$	16.99

# TOOL BUCKET ORGANISER

### TOOL BUCKET ORGANISER

The Tool Bucket Organiser is an insert with multiple pockets - exclusively developed to fit the Hultafors Tool Bucket. The inside is lined with small and mid-size pockets. On the outside you'll find a holster for a cordless drill and larger pockets, with and without flaps.

It will help you to organise your tools along the sides of the bucket, preventing smaller things from ending up at the bottom and giving you a better overview of your equipment.

- Developed to fit the Hultafors Tool bucket.
- 31 pockets and tool holders including 1 cordless drill holster.
- Metal carabiner for safely securing keys inside one of the closed front pockets.
- Easily inserted into the bucket and secured by straps for a perfect fit.
- Made from heavy-duty ballistic polyester fabric for increased durability.

Ref. no.	Model	Length	Width	Height	Weight	Volume	Unit Price
590102	TBO	175mm	195mm	90mm	0.709kg	3.071L	24.17

# AWARD-WINNING TOOLS

A selection of Hultafors Tools that have won design competitions.

Considered to be one of the world's most prestigious product accolades and renowned as a symbol of innovation and quality for nearly 70 years, the iF DESIGN AWARD has been recognised globally as a hallmark of quality for exceptional product design for nearly 70 years. Hultafors Group has won the iF Design Award 2020 for two products: Snap-Off Knife (SFRP 18A) and Dry Marker HDM.

## DRY MARKER HDM

Grip-friendly pencil in holster with built-in sharpener for clear markings. Packed in 10-packs.

Ref. no.	Model	Length	Width	Height	Unit Price
650100	HDM	164mm	21mm	28mm	12.91

## SNAP-OFF KNIFE SFRP 18A

Ergonomic snap-off knife with auto lock and tail fin for tucking carpets or opening cans. Suitable for all-round use, the design with rubberised grip makes it suitable for cutting materials demanding more power such as plasterboard, insulation, aqua panel and wood. Tapered for better visibility, access and control. The knife includes a dispenser with 3 spare blades and is made of durable PC-plastic (polycarbonate) with a steel core for added stability. 1mm thick metal blade rail for additional stability. The knife features a symmetric design to accommodate both left and right usage. Packed in 10-packs.

Ref. no.	Model	Blade Width	Blade Length	Total Length	Unit Price
389240	SFRP 18A	18mm	100mm	178mm	7.59

reddot design award

Hultafors Group have received seven Red Dot awards since first entering the international design competition. The "Red Dot" has become one of the most sought-after seals of quality for good design among manufacturers and designers all over the world. According to the motto "in search of good design and innovation", the jury evaluates the entries and only awards a Red Dot to products that win them over with their high design quality.

reddot design award

## 4 PIECE HDC CHISEL SETS

Forged in one piece with an I-beam for extreme durability and to maximise the force transmission down to the work piece. Ideal for tasks requiring extreme strength and precision. Each chisel has a smart holster for protection and easy access.

Ref. no.	Chisel widths	Pack Qty	Unit Price
390671	6mm, 12mm, 18mm, 25mm	1	147.28
390673	12mm, 18mm, 25mm, 32mm	1	150.37
390295	20mm, 25mm, 32mm, 40mm	1	158.61

reddot design award

## 5 PIECE EDC CHISEL SET

An everyday chisel for tough precision and all round use. High-quality Japanese steel blade with heavy-duty handle. Each chisel has a smart holster for protection and easy access. The set includes 5 EDC chisels: 6mm, 12mm, 18mm, 25mm and 32mm.

Ref. no.	Pack Qty	Unit Price
390006	1	92.80

reddot design award

## OUTDOOR KNIFE OK4 GH

A durable outdoor knife with friction grip suitable for tough tasks in the field. The hard-wearing textile belt loop allows up to 80mm wide belts and is equipped with a pocket for a fire starter. The blade has a Scandi grind and is made from Japanese knife steel, 3.0mm carbon steel that has been hardened to 58-60 HRC and has a rust protective electrophoretic deposition coating to withstand corrosion. The ground spine of the blade is designed for starting a fire with a fire starter. Packed in 10-packs.

Ref. no.	Blade Length	Total Length	Unit Price
380270	93mm	209mm	23.29

reddot design award

## CARPENTER'S HAMMER TC

An ergonomically designed hammer, forged in one piece for increased durability with a vibration damping urethane plug. Thin, strong rounded claw that affords easy access without leaving marks. The claw opening and angle give the best possible grip on the nail. Ergonomically designed handle with clear end stop and a secure grip. Packed in 2-packs.

Ref. no.	Model	Weight	Handle	Unit Price
820110	TC 16 L	720g	Large	48.41
820120	TC 16 XL	720g	X-Large	48.41
820130	TC 20 L	795g	Large	52.91
820140	TC 20 XL	795g	X-Large	52.91

reddot design award

## HANDSAW HBX

Hultafors' unique teeth with 3-phase grinding combine efficiency and a good bite with nice straight cuts without chipping. The 1mm thick steel blade with a unique eco-friendly wax coating gives less friction and power-consuming side vibrations. Packed in 4-packs.

Ref. no.	Model	Blade Length	Teeth/Inch	Unit Price
590703	HBX-22-7	550mm	7 tpi	41.37
590903	HBX-22-9	550mm	9 tpi	41.37
591103	HBX-22-11	550mm	11 tpi	41.37

reddot design award

## ADJUSTABLE WRECKING BAR 209 SB

Wrecking bar manufactured in high quality steel with ergonomic rubber-clad handle. Articulated claw, adjustable to nine different positions. Wide, ground contact surfaces and thin ends make it easy to use and reduce the risk of leaving marks. Packed in 2-packs.

Ref. no.	Length	Weight	Unit Price
824115	640mm	1730g	124.43

reddot design award

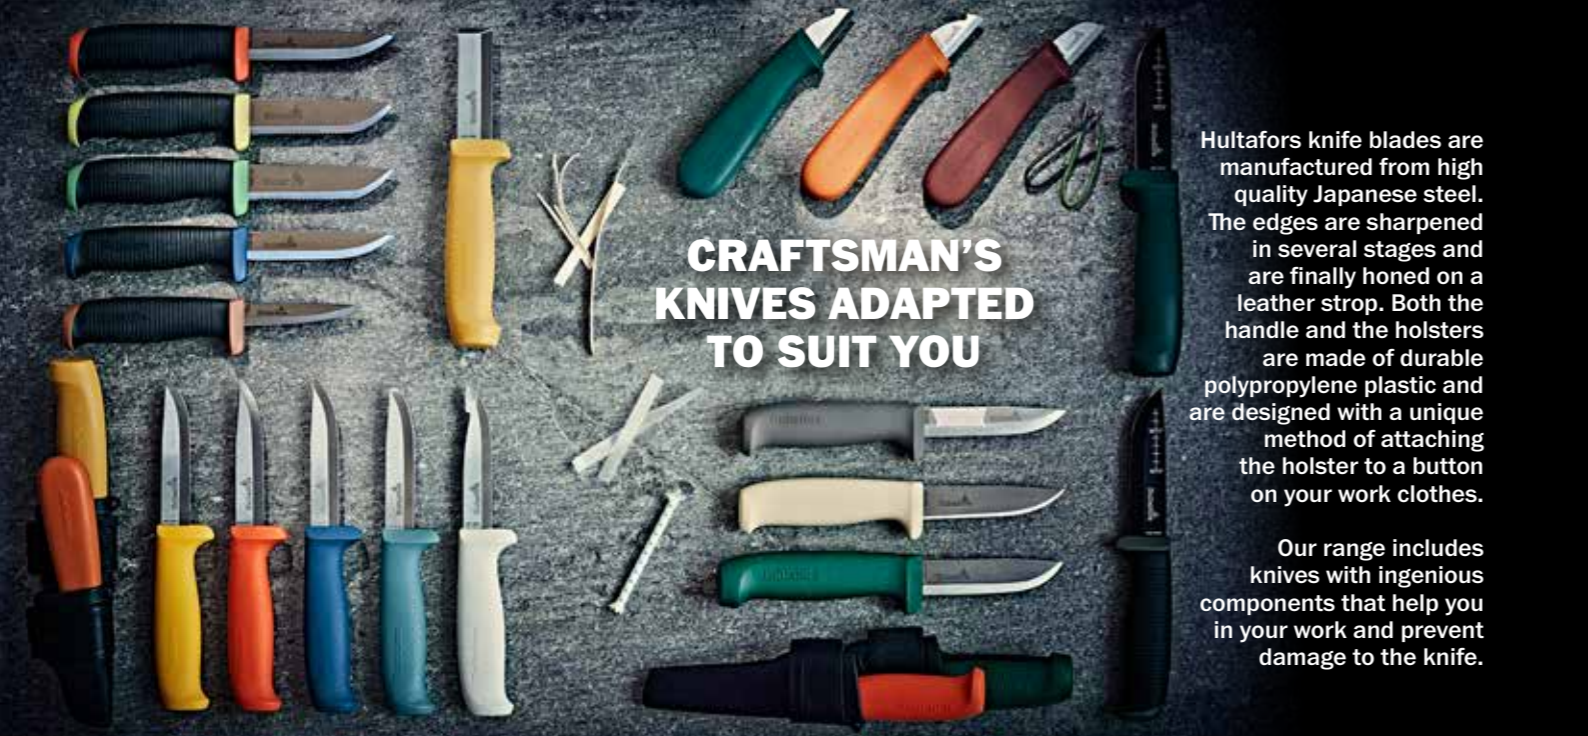

## CC LONG MEASURING TAPE

The CC measuring tapes have a unique one-hand grip for each case size, enabling optimal handling. Available in a variety of lengths with either a 'Matt Coat' polyester coated steel or PVC overcoated fibreglass blade. With a solid high-impact case of ABS plastic that is tougher than an equivalent steel case. Unique loop with added features and a mouth-piece with anti-wear function. Hole hanger for strap enabling safe work at heights. Packed in 2-packs.

- Matt polyester coated steel blades are accurate to EC Class I.
- PVC overcoated fibreglass blades are accurate to EC Class II.
- The medium case size has a quick rewind function 3:1.

Ref. no.	Model	Length	EC Class	Blade Width	Blade Type	Unit Price
390213	CC20ME	20m/66ft	I	10mm	Matt Coat	36.05

## CRAFTSMAN'S KNIVES ADAPTED TO SUIT YOU

Hultafors knife blades are manufactured from high quality Japanese steel. The edges are sharpened in several stages and are finally honed on a leather strop. Both the handle and the holsters are made of durable polypropylene plastic and are designed with a unique method of attaching the holster to a button on your work clothes.

Our range includes knives with ingenious components that help you in your work and prevent damage to the knife.

## Knives

Packed in 10-packs unless otherwise stated.  
† Indicates a carded product.

### OUTDOOR KNIFE OK1

3mm carbon steel blade featuring scale and ground spine to facilitate use of a firestarter.  
Designed for outdoor use. Holster features a detachable hard-wearing textile belt loop which includes a pocket for a firestarter.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380110	OK1	93mm	225mm	20.70

### OUTDOOR KNIFE OK4 GH

3mm carbon steel blade featuring scale and ground spine to facilitate use of a firestarter. Gripped handle.  
Designed for outdoor use. Holster features a detachable hard-wearing textile belt loop which includes a pocket for a firestarter.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380270	OK4	93mm	209mm	23.29
382270†	OK4	93mm	209mm	24.69

### FIRE STEEL FS

100mm long and 10mm in diameter for use in all weathers. To be used against the spine of the OK1 and OK4 knives whose holsters come with fire steel holders. The elastic strap provides extra grip.

Ref. no.	Model	Total Length	Unit Price
380280	FS	100mm	12.69

### OUTDOOR FOLDING KNIFE OKF

2.8mm black-coated stainless steel blade. Ideal for fishing trips or the forest. Simple, safe locking of the blade is possible using a button on the side of the handle. Features a reversible belt clip.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380310	OKF	70mm	188mm	44.32

### PRECISION KNIFE PK GH

2mm carbon steel blade.  
Designed for precision work such as carving.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380220	PK GH	93mm	208mm	10.03
382220†	PK GH	93mm	208mm	11.31

### ROPE KNIFE RKR GH

2mm stainless steel blade.  
Optimised for cutting through hard or tough surfaces.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380230	RKR GH	93mm	209mm	14.36
382230†	RKR GH	93mm	209mm	15.06

### RESCUE KNIFE OKR GH

2mm stainless steel blade.  
Optimised for cutting through hard or tough surfaces. Designed with a dull point to minimise injuries.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380240	OKR GH	90mm	206mm	14.36

### CRAFTSMAN'S KNIFE HVK

2.5mm carbon steel blade.  
General purpose knife.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380010	HVK	93mm	208mm	5.46

### CRAFTSMAN'S KNIFE HVK BIO

2.5mm carbon steel blade. Handle made from bio-based plastic and the handle design uses less plastic than the standard HVK knife. Available with plastic holster or paper sleeve.  
General purpose knife.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380150	HVK BIO	90mm	208mm	8.05
385050	HVK BIO PH	90mm	208mm	7.04

### CRAFTSMAN'S KNIFE HVK GH

Gripped handle.  
2.5mm carbon steel blade.  
General purpose knife.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380210	HVK GH	93mm	208mm	9.35

### CRAFTSMAN'S KNIFE RFR

2.5mm stainless steel blade.  
General purpose knife made in stainless steel.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380060	RFR	93mm	208mm	9.10

### CRAFTSMAN'S KNIFE RFR GH

Gripped handle.  
2.5mm stainless steel blade.  
General purpose knife made in stainless steel.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380260	RFR GH	93mm	208mm	13.14

### HEAVY-DUTY KNIFE GK

3mm carbon steel blade.  
A powerful and durable ground knife suitable for coarse work such as prizing, breaking and hacking.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380020	GK	94mm	222mm	7.62

### SAFETY KNIFE SK

2.5mm carbon steel blade.  
Designed with a dull point to minimise injuries.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380080	SK	88mm	203mm	5.46

### SAFETY KNIFE SKR

2.5mm stainless steel blade.  
Designed with a dull point to minimise injuries.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380090	SKR	88mm	203mm	8.45

### ELECTRICAL FITTER'S KNIFE EFK

1.5mm carbon steel blade.  
Designed specifically for cable stripping.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380140	EFK	35mm	160mm	5.46
382140†	EFK	35mm	160mm	6.69

### ELECTRICIAN'S KNIFE ELK

1.5mm carbon steel blade.  
Designed with blade edges for optimum cable stripping.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380030*	ELK	33mm	158mm	5.75
383030**	ELK-L	33mm	158mm	5.75

\* Right handed (orange handle)

\*\* Left handed (green handle)

# CHISEL KNIFE STK

Robust knife with V-ground chisel function. The blade is made from Japanese knife steel, 3mm carbon steel that has been hardened to 58-60 HRC.

- The cutting edge has been sharpened with a double edge angle and a final honing on a leather strop.
- Both the handle and holster are made from super-durable PP plastic.
- The holster can be attached to both a belt and a button on your work clothes. If your belt is thick, cut away the small pin on the cover.

Ref. no.	Model	Blade Length	Total Length	Pack Qty	Unit Price
380070	STK	72mm	201mm	10	9.10

### PAINTER'S KNIFE MK

2.5mm carbon steel blade.  
Shaped to open paint tins plus there is a slot screwdriver at the end on the blade.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380040	MK	93mm	208mm	6.31

### PLUMBER'S KNIFE VVS

2.5mm stainless steel blade.  
Designed with a file for filing off burrs.

Ref. no.	Model	Blade Length	Total Length	Unit Price
380050	VVS	93mm	208mm	10.49

### DOUBLE HOLSTER

Quantity per pack: 5.

Ref. no.	Models Included	Unit Price
381010	HVK & HVK	21.52
381020	GK & HVK	23.10
381030	HVK & ELK	20.81
381040	HVK & URA	30.99
381050	SK & USRA	30.38
381060	JS & URA	42.40

Extremely durable bi-metal blade developed to offer sharpness and long-life like no other blade. Dispenser contains 5 blades.

Ref. no.	Model	Blade Width	Length	Qty/Pack	Unit Price
388320 5pk	UBX-5	19mm	61mm	10	20.77

# PRECISION IN EVERY CUT

The Hultafors range of snap-off knives and spare blades are all defined by high precision, excellent sharpness and long-lasting performance.

Combined with clever and ergonomic design, these features guarantee a focused and efficient job.

## SNAP-OFF KNIFE SFRPB 18A/W

Ergonomic snap-off knife with a bent tail fin. The rubberised grip makes it ideal for cutting tougher materials demanding more power, such as plasterboard, insulation, aqua panel and wood. It has a tapered knife tip with extended front of blade rail for better stability, access and visibility. The bent tail fin efficiently tucks carpets or opens cans. The knife includes a dispenser with 3 spare blades and is made of durable PC-plastic (Polycarbonate) with a steel core for added stability. 1mm thick metal blade rail for additional stability.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389340	SFRPB 18A	Auto	18mm	100mm	193mm	10	8.10
389350	SFRPB 18W	Wheel	18mm	100mm	193mm	10	8.10

## SNAP-OFF KNIFE SFRP 18A/W

Ergonomic snap-off knife with tail fin for tucking carpets or opening cans. Suitable for all-round use, the design with rubberised grip makes it suitable for cutting materials demanding more power such as plasterboard, insulation, aqua panel and wood. Tapered for better visibility, access and control. The knife includes a dispenser with 3 spare blades and is made of durable PC-plastic (polycarbonate) with a steel core for added stability. 1mm thick metal blade rail for additional stability. The knife features a symmetric design to accommodate both left and right usage.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389240	SFRP 18A	Auto	18mm	100mm	178mm	10	7.59
389250	SFRP 18W	Wheel	18mm	100mm	178mm	10	7.59

## SNAP-OFF KNIFE SRP

The snap-off knife SRP is an ergonomic, robust knife available in four different model types. The design with rubberised grip makes it suitable for materials demanding more power. Tapered for better visibility, access and control. The knife includes a dispenser with 3 spare blades and is made of durable PC-plastic (polycarbonate) with a steel core for added stability. 1mm thick metal blade rail for additional stability. The knife features a symmetric design to accommodate both left and right usage.

## SNAP-OFF KNIFE SRP 18A/W

Suitable for all-round use such as cutting plasterboard, insulation, aqua panel and wood.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389220	SRP 18A	Auto	18mm	100mm	156mm	10	7.06
389230	SRP 18W	Wheel	18mm	100mm	156mm	10	7.06

## SNAP-OFF KNIFE SRP 25A/W

Suitable for cutting thick carpets or insulation.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389260	SRP 25A	Auto	25mm	125mm	156mm	6	11.73
389270	SRP 25W	Wheel	25mm	125mm	156mm	6	11.73

## SNAP-OFF KNIFE SPP

The snap-off knife SPP is a robust knife, available in five different model types. The slim design makes it suitable for all-round use. Tapered for better visibility, access and control. The knife is made of durable PC-plastic (polycarbonate) with a steel core for added stability. The knife features a symmetric design to accommodate both left and right usage.

## SNAP-OFF KNIFE SPP 9A

Suitable for precision cuts such as intricate paper cutting or opening boxes. Easy to attach to a pocket using the clip which can also be used for safe blade snapping. Auto lock function.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389140	SPP 9A	Auto	9mm	80mm	147mm	10	3.46

## SNAP-OFF KNIFE SPP 18A/W

Suitable for all-round use such as cutting plastic, paperboard and stripping cables. 1mm thick metal blade rail for additional stability. Available with auto lock or wheel lock function.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389150	SPP 18A	Auto	18mm	100mm	157mm	10	6.06
389160	SPP 18W	Wheel	18mm	100mm	157mm	10	6.06

## SNAP-OFF KNIFE SPP 25A/W

Suitable for cutting thick carpets or insulation. 1mm thick metal blade rail for additional stability. Available with auto lock or wheel lock function.

Ref. no.	Model	Lock	Blade Width	Blade Length	Total Length	Pack Qty	Unit Price
389280	SPP 25A	Auto	25mm	125mm	186mm	6	9.64
389290	SPP 25W	Wheel	25mm	125mm	186mm	6	9.64

# Snap-Off Knife Spare Blades

## SNAP-OFF BLADE ALLROUND

A reliable blade for everyday cutting with excellent sharpness and long life, developed for all-round usage such as cutting plastic and paperboard, stripping cables and opening boxes. 9mm blade comes in a pack of 10. 18/25mm blades come in a practical storage box with 4 dispensers holding 3 spare blades each. The box can be used for snapping blades and safely storing worn-out blades. 8-12 sections per blade, the last blade can also be used.

Ref. no.	Model	Blade Width	Blade Length	Pack Qty	Unit Price
389530	SBA9-10	9mm	80mm	10	5.06
389630	SBA18-4X3	18mm	100mm	10	8.49
389650	SBA25-4X3	25mm	125mm	10	11.95

## SNAP-OFF BLADE NON-SEGMENT

A flexible blade for precision work close to the workpiece. Used for removing residues of glue and silicone. Fits snap-off knives that use 18/25mm wide blades. The blade can be mounted for right and left-handed usage.

Ref. no.	Model	Blade Width	Blade Length	Pack Qty	Unit Price
389740	SBN18-4X3	18mm	100mm	10	20.98
389770	SBN25-4X3	25mm	125mm	10	45.36

## SNAP-OFF BLADE EDGE

A blade with extra sharpness for tasks demanding precision, developed for precision cuts and when cutting plasterboard. 9mm blade comes in a pack of 10. 18/25mm blades come in a practical storage box with 4 dispensers holding 3 spare blades each. The box can be used for snapping blades and safely storing worn-out blades. 8-12 sections per blade.

Ref. no.	Model	Blade Width	Blade Length	Pack Qty	Unit Price
389890	SBE9-10	9mm	80mm	10	5.74
389830	SBE18-4X3	18mm	100mm	10	10.19
389860	SBE25-4X3	25mm	125mm	10	16.65

## SNAP-OFF BLADE PERFORMANCE

A blade with sharp long-life performance for tougher cuts, developed for cutting insulation, plasterboard and carpets. Comes in a practical storage box with 4 dispensers holding 3 spare blades each. For 18/25mm blades the box can be used for snapping blades and safely storing worn-out blades. 8 sections per blade, the last blade can also be used.

Ref. no.	Model	Blade Width	Blade Length	Pack Qty	Unit Price
389920	SBP18-4X3	18mm	100mm	10	18.20
389940	SBP25-4X3	25mm	125mm	10	36.08

## Chisels

Packed in 5-packs unless otherwise stated.

### CHISEL HDC

Forged in one piece with an I-beam for extreme durability and to maximise the force transmission down to the work piece.

Ideal for tasks requiring extreme strength and precision. A perfect ground blade, bevelled at 25° for the best possible ratio of sharpness and durability.

The entire chisel including the handle can be positioned flat against the surface for expanded uses.

Smart holster for protection and easy access.

Quantity per pack: 2

Ref. no.	Model	Blade Width	Total Length	Unit Price
390603	HDC 6	6mm	265mm	37.38
390613	HDC 8	8mm	265mm	37.45

390283	HDC 32	32mm	265mm	40.41
390663	HDC 38	38mm	265mm	42.05
390293	HDC 40	40mm	265mm	46.35

### REPLACEABLE NYLON STRIKER

The striking face is highly resistant.

Available as a replaceable spare part.

Quantity per pack: 1

Ref. no.	Model	Total Length	Unit Price
390299	Spare Striker	200mm	5.28

### CHISEL EDC

An everyday chisel for tough precision and all round use. High-quality Japanese steel blade with heavy-duty handle.

Smart holster for protection and easy access.

Ref. no.	Model	Blade Width	Total Length	Unit Price
390013	EDC 6	6mm	232mm	17.24
390023	EDC 10	10mm	232mm	17.55
390033	EDC 12	12mm	232mm	17.97
390043	EDC 16	16mm	232mm	18.32
390053	EDC 18	18mm	232mm	18.58
390063	EDC 20	20mm	232mm	19.03
390073	EDC 25	25mm	232mm	19.33
390083	EDC 32	32mm	232mm	19.67

### INCANNEL GOUGE IGC

Curved chisel, sharpened on the inside, giving a perfect 11mm radius in one stroke. Perfect for locks and hinges. High-quality Japanese steel blade with heavy-duty handle. Smart holster for protection and easy access.

Ref. no.	Model	Blade Width	Total Length	Unit Price
390133	IGC d22	11mm	232mm	24.47

### OUTCANNEL GOUGE OGC

Curved chisel, sharpened on the outside, giving a perfect 8mm radius in one stroke. Perfect for making cable ditches. High-quality Japanese steel blade with heavy-duty handle. Smart holster for protection and easy access.

Ref. no.	Model	Blade Width	Total Length	Unit Price
390123	OGC r8	8mm	232mm	24.47

### CHISEL EDC & CRAFTSMAN'S KNIFE HVK IN A DOUBLE HOLSTER

The Chisel EDC 25mm and Craftsman's knife HVK form the perfect combination.

Supplied in an easily accessible double holster, made from impact-resistant PP plastic, joined by rivets and hardwearing leather.

Japanese steel blades with heavy-duty handles designed to withstand repeated hammer blows.

Quantity per pack: 6.

Ref. no.	Model	Total length	Unit Price
391073	EDC 25 & HVK	232mm & 208mm	39.62

### 4 PIECE HDC CHISEL SET

Each set includes 4 HDC chisels.

NEW SETS ADDED!

Ref. no.	Chisel Widths	Pack Qty	Unit Price
390295	20, 25, 32 & 40mm	1	158.61
390671	6, 12, 18 & 25mm	1	147.28
390673	12, 18, 25 & 32mm	1	150.37

### 5 PIECE EDC CHISEL SET

Set includes 5 EDC chisels: 6mm, 12mm, 18mm, 25mm and 32mm.

Ref. no.	Pack Qty	Unit Price
390006	1	92.80

## Tool carriers

### LEATHER TOOL ROLL LTR

Leather tool roll for keeping tools such as chisels, screwdrivers, wrenches and knives safe and organised. Features 12 riveted pockets, sized 50 x 120mm. Size spread out: 600 x 410mm, size rolled up: 350 x diameter 100mm.

Quantity per pack: 1.

Ref. no.	Model	Length	Width	Height	Unit Price
390681	LTR	500mm	200mm	20mm	30.04

### HAMMER HOLDER

Ergonomically-angled design prevents the hammer-handle from striking your leg when walking, or getting in the way when bending down on your knees. The angle also makes it easy to access the hammer. Easy to attach to trousers, a belt or a tool vest. Made in extra strong, yet flexible thermoplastic that will not damage delicate surfaces.

Quantity per pack: 10.

Ref. no.	Model	Length	Width	Height	Unit Price
592000	HMRH	67mm	70mm	90mm	11.89

### TOOL BUCKET

Ergonomically shaped bucket designed for carrying tools. Robust handle for comfortable tool carrying that can be put in standing position when put down. Measuring scale on the inside, can take a burden of 100kg.

Ref. no.	Model	Length	Width	Height	Unit Price
590101	TB1	304mm	433mm	239mm	20.83
590100	TB1 Display	332mm	461mm	782mm	20.83

### TOOL BUCKET ORGANISER

The Tool Bucket Organiser is an insert with 31 pockets and tool holders including a cordless drill holster - exclusively developed to fit the Hultafors Tool Bucket. Secured by straps for a perfect fit. Metal carabiner for safely securing key inside one of the closed front pockets. Made from heavy-duty ballistic polyester fabric for increased durability. Weight: 0.709kg, volume: 3.071L.

Ref. no.	Model	Length	Width	Height	Unit Price
590102	TBO	175mm	195mm	90mm	24.17

# TESTED FOR THE REAL WORLD

**NEW!**  
Spring 2024

For 140 years, Hultafors has been creating premium hand tools with the aim of providing the best possible function, precision, and quality. After the success of our tool bucket, we are now taking the next step with the launch of a range of tool carriers that are the ideal companions for all your tools.

Engineered for professionals, our brand-new collection of tool bags combines ultimate functionality with rugged design. Crafted from an extremely durable, water-repellent 1680D polyester, our Tool Carriers are the fortress your tools deserve. Stains, dust, mildew — our bags resist them all, ensuring your gear remains organised and protected.

### MOLDED BASE TOOL BACKPACK

Ergonomic, heavy duty, all-purpose tool backpack with a robust moulded base, adjustable straps and 48 pockets and tool holders. The base prevents the bag from tipping over, protects the bottom from moisture, dirt and wear - and keeps your tools dry. Features two compartments that zip open fully for maximum overview and access. Compartment closest to your back has a padded pocket for laptops (up to 15"), tablets and documents. Also features medium-sized pockets with lids and zippers, an external water bottle pocket, tape measure holder, pen holders, key chain holder and elastic loops for smaller tools such as screwdrivers.

NEW

Ref. no.	Length	Width	Height	Unit Price
590120	480mm	370mm	340mm	122.85

### TROLLEY TOOL BAG

Large, versatile trolley tool bag featuring 33 pockets and tool holders, perfect for any tradesperson who needs to bring an extensive set of tools to the worksite. It's designed to carry power tools, hand tools, electronics, gadgets - everything you need. Large, treaded wheels and a telescopic aluminium handle allows you to easily pull it along over most surfaces. Features one single large compartment lined with pockets and tool holders. There is a strap for fastening the lid in an open position, external pockets, padded handles and a set of straps for attaching spirit levels or other long and narrow tools.

NEW

Ref. no.	Length	Width	Height	Unit Price
590170	470mm	530mm	370mm	150.30

### OPEN-TOP TOOL CARRIER

All-purpose, soft-sided tool box featuring 35 pockets and tool holders, an open top and lower sides for easy access and overview. The large centre compartment is lined with pockets and tool holders, external pockets include a holder for long, narrow tools such as spirit levels and saws, a tape measure holder, electrician's tape strap, pen holders, key chain holders and elastic loops for smaller tools such as screwdrivers. Extra high handle with rubber covering allowing for a comfortable grip.

NEW

Ref. no.	Length	Width	Height	Unit Price
590140	540mm	310mm	290mm	70.27

### TOOL BACKPACK

Ergonomic, all-purpose tool backpack with 48 pockets and tool holders, adjustable straps and two large, zippered compartments that zip open fully for maximum overview and access. Through a zipper on the side, you can access a third, central padded compartment that can fit laptops (up to 15"), tablets and documents. The large pocket on the front of the bag features a buckled strap for securing large/unruly equipment, materials, cables and components. Also has medium sized pockets with lids/zippers and straps for securing power tools and chargers, external tape measure holder, pen holders, a key chain holder and a small loop for attaching a carabiner.

NEW

Ref. no.	Length	Width	Height	Unit Price
590130	430mm	380mm	330mm	108.53

# THE HULTAFORS SCREWDRIVER RANGE

The Hultafors range of screwdrivers includes Slotted, Phillips, Pozidriv and Torx® models featuring both long and short blades, VDE screwdrivers, Voltage Testers, Hex Drivers, Bit Holders and Torsion Diamond Bits.

A variety of screwdriver and bit holder sets featuring a selection of the most common models are also available, ideal for various tasks.

The range has been developed together with professionals, ensuring excellent design ergonomics, colour coding and clear permanent marking feature strongly. Manufactured in high quality, hardened steel with a handle in durable PPC plastic and easy-to-grip rubber.

## ELECTRICIAN'S TOOL BAG

Open top, soft-sided tool bag with 34 pockets and tool holders and a square footprint that provides great stability, such as when being transported in a car. The bag's main space is divided into three equal compartments lined with pockets and tool holders, and the dividing sections are riveted onto the main body of the bag for extra rigidity. Also features medium sized pockets with lids and zippers, a transparent pocket and an assortment box for storing screws and other small components that fits into a large pocket on the outside of the bag. Also has an external tape measure holder, an electrician's tape strap, a key chain holder and elastic loops for smaller tools such as screwdrivers.

NEW

Ref. no.	Length	Width	Height	Unit Price
590150	470mm	340mm	310mm	70.42

## ERGONOMIC TOOL CARRIER

Open, soft-sided toolbox with 25 pockets and tool holders, designed for ergonomic carrying. The back of the bag has an ergonomic curve to give your leg better room to move. Features a robust, moulded base to prevent the bag tipping over and protects from moisture, dirt and wear - keeping your tools dry. The front and bag of the back has different heights for a good overview and access from the front, and support for your tools on the back. Large centre compartment lined with pockets and tool holders and medium sized pockets with lids and zippers. Also includes a rain and dust cover made from ripstop fabric with a padded, adjustable shoulder strap.

NEW

Ref. no.	Length	Width	Height	Unit Price
590110	420mm	260mm	270mm	82.97

## ELECTRICIAN'S TOOL POUCH

Ergonomic tool pouch with 21 pockets and tool holders for electricians and technicians. Shaped like a small messenger bag and designed to be worn whilst working - keeping your tools within reach. Can be attached to a belt, up to 60mm wide. The zippered lid keeps equipment safe and the main compartment has multiple pockets to help organise tools. Also includes an external tape measure holder, electrician's tape strap, a small loop for attaching a carabiner, elastic loops for smaller tools such as screwdrivers and holders for a key chain, hammer and pens.

NEW

Ref. no.	Length	Width	Height	Unit Price
590180	390mm	310mm	150mm	53.69

## ZIPPERED TOOL BAGS

Set of two small tool bags for storage of special tools, equipment or materials like screws, tacks, bits etc. Each bag has three storage spaces, one large compartment and 2 smaller pockets. The bags also feature a textile loop which makes them easier to carry or hang from a bag, belt or a hook.

NEW

Ref. no.	Length	Width	Height	Unit Price
590190	300mm	250mm	20mm	14.54

## HAMMER AND TOOL HOLDER

A tool holster with a sturdy metal hammer holder and a pocket for utility knives, pliers or other small tools that you always want to keep close at hand. You can hang it from your belt via a loop at the top and it fits belts up to 50mm wide.

NEW

Ref. no.	Length	Width	Height	Unit Price
592010	200mm	90mm	70mm	14.54

## TECHNICIAN'S TOOL BAG

A closed, compact tool bag with 48 pockets and tool holders designed for technicians, maintenance workers and electricians, and has three zipped compartments. The centre compartment has an extra large, 'big mouth' opening with a framing that allows you to leave it fully open whilst working. Side compartments zip open fully for maximum overview and access. Features medium sized pockets with lids and zippers for safe storage. Also includes an external tape measure holder, key chain holder, pen holder and transparent pockets.

NEW

Ref. no.	Length	Width	Height	Unit Price
590160	360mm	350mm	270mm	82.97

## Screwdrivers

Hultafors screwdrivers feature an ergonomic design for optimal comfort. The handle - made from durable PPC plastic with a coating of age-resistant and easy-to-grip rubber - ensures grip for precision and maximal transmission of power. The permanent marking of type and size on the top as well as the handle's colour, make it easy to select the right screwdriver from a tool carrier. The blade is manufactured from high-quality hardened steel for a long life. The design prevents the screwdriver from rolling on inclined surfaces and features a hole for hanging or securing. Packed in 1-packs unless otherwise stated.

448715	TDB Torx/PZ/PH	55.50

# HULTAFORS AXES

## Forged With Tradition

For thousands of years the axe has been an extension of the arm for humankind. With the help of the axe, man has been able to find his way through unspoiled nature, construct dwellings and butcher wild game. The axe has been a survival tool while at the same time it has offered freedom and independence. He who had a sharp axe could defend himself at all times and also prosper.

Today we no longer need the axe for survival but it still helps us solve a number of practical tasks in everyday life whilst assisting lovers of the outdoors to enrich their leisure time.

With the axe being a part of our cultural heritage, the blacksmith has an essential role both in preserving the axe tradition for coming generations and more importantly, in giving the axe user ultimate satisfaction and utility in the use of his axe.

Hultafors axes are produced at Hults Bruk in Sweden where axes have been forged for over 300 years. In addition to Hultafors' standard axe range, 2018 sees the launch of a new range of premium axes and selection of outdoor accessories, to suit a range of tasks both large and small.

## Axes

Hand forged from Swedish steel with a hickory handle.

### TREKKING AXE

A small axe for outdoor life in forests and open land. Manufactured in blasted and clear-lacquered ironwork, which is also suitable for work in the garden.

Ref. no.	Weight	Handle	Pack Qty	Unit Price
840025	600g	Hickory	4	81.80
840086	900g	Hickory	4	90.66

### FELLING AXE HY

Suitable for small scale tree felling. Manufactured in blasted and clear lacquered ironwork. Curved hickory handle.

Ref. no.	Weight	Handle	Pack Qty	Unit Price
840085	900g	Hickory	4	92.52
840144	1200g	Hickory	4	106.98
840185	1500g	Hickory	4	113.31

### SPLITTING AXE KLY

Heavier axe suitable for splitting thick wood. Manufactured in blasted and clear lacquered ironwork. Straight hickory handle.

Ref. no.	Weight	Handle	Pack Qty	Unit Price
840592	1500g	Hickory	2	156.50

**NEW!**  
FOR 2024

**Introducing the  
Dvardala Hunting  
& Forest Axe and  
leather accessories**

**NEW!**  
FOR 2024

# LEATHER ACCESSORIES

Packed in 1-packs unless otherwise stated.

## OVERSTRIKE GUARD

A leather strike guard that protects the handle closest to the axe head in the event of an overstrike. The guard (also known as a handle protector or an axe collar) is tied around the handle using the included leather cords. The strike guard is made in Sweden using Swedish cow hides and it is manufactured with the greatest care for the animals and the environment. The leather is vegetable tanned full grain leather for the best possible durability and the natural treatment means that it will age beautifully when worn. Fits the following Hultafors Premium axes: Ågelsjön, Hultån, Åby, Dvardala, Ekelund and Qvarfot.

**NEW**

Ref. no.	Model	Length	Unit Price
840793	OGHB	120mm	16.90

## AXE HOLSTER

A holster so you can carry your axe with you in your belt and always have it close and ready to use. Remember to always have the axe sheath on when carrying the axe in the holster. The holster is made in Sweden using Swedish cow hides and it is manufactured with the greatest care for the animals and the environment. The leather is vegetable tanned full grain leather for the best possible durability and the natural treatment means that it will age beautifully when worn. Fits belt widths up to 50mm (2 inches). The opening measures approximately 55 x 30mm. Fits the following Hultafors Premium axes: Ågelsjön, Hultån, Åby, Dvardala (with strike guard) and Ekelund (without strike guard).

**NEW**

Ref. no.	Model	Length	Unit Price
840795	ABHHB	142mm	18.50

## AXE SLING

A leather axe sling for carrying your axe on your back, perfect when you don't want to carry a backpack. It is length adjustable between 900 and 1100mm to suit different axes and people. The sling is extra wide over the shoulder to distribute the weight and be comfortable to wear. It attaches to the axe with the carabiners at each end of the sling. One end attaches to the hole in the handle via an extra leather strap that is included, the other end is attached to the axe sheath. (There are only attachment holes on newer sheaths.) The sling is made in Sweden using Swedish cow hides and it is manufactured with the greatest care for the animals and the environment. The leather is vegetable tanned full grain leather for the best possible durability and the natural treatment means that it will age beautifully when worn. Width: 25 - 45mm (1 - 2 inches).

**NEW**

Ref. no.	Model	Weight	Unit Price
840796	ASHB	151g	42.50

## LEATHER BELT

A timeless belt engraved with Hults Bruk's classic logo, made of vegetable-tanned leather that matches Hults Bruk's premium axe sheaths and other axe accessories. It is 40mm wide and has a sturdy buckle with an antique brass finish that is free from chrome, nickel and lead. You can unscrew the buckle from the strap and shorten the belt to any length (don't forget to fasten the seam if you do this). The belt is made in Sweden using Swedish cow hides and it is manufactured with the greatest care for the animals and the environment. The leather is vegetable tanned full grain leather for the best possible durability and the natural treatment means that it will age beautifully when worn.

**NEW**

Ref. no.	Model	Length	Unit Price
840797	LBHB-95	95cm	47.90
840798	LBHB-115	115cm	49.90

## TREKKER'S LITTLE HELPER FORSBERG

Versatile outdoor accessory made from genuine leather and impregnated on both sides. Perfect as a seat pad, to help start and move a fire, and as protection when carving and processing wood. Features holes and leather strap for easier fastening onto a backpack.

Ref. no.	Model	Length	Width	Unit Price
840791	FORSBERG 32x22	320mm	220mm	28.33

## GRINDING STONE AXE

Grinding stone is designed to give a steady grip, protecting hands and fingers from cutting injuries. The stone has a coarse grit grain size of 180, fine grit grain size of 600. Includes protective genuine leather case for long life span. Grinding with water is recommended.

Ref. no.	Model	Length	Width	Height	Unit Price
840792	GS 600/180	75mm	75mm	25mm	56.71

## Sharp versatility.

Dvardala is a perfect axe for hunting and forest life. It is a combination of several different axe types, ideal for a day in the forest where you might have to deal with a wide range of challenges. It has the same type of head as the Hultafors Åby axe, but the handle is shorter - 440mm long (17 inches) - making the axe easier to bring with you, for example in a backpack. The shorter handle also makes it easier when you work with the axe close to the body. The axe is suitable for precision work such as carving or building shelters, fire stands and other things around a camp site. This is thanks to a well-proportioned hand notch and a semi-straight edge with a flat and wide grind.

The hand notch allows you to grip around the head and steer the axe with maximum control. The edge is a semi-straight with flatter sides allowing the axe to rest firmly against the work piece when you cut along a piece of wood. But it's still curved enough so that the axe can be used for lighter forestry work such as clearing a path or a line of fire. The head is a bit thicker over the cheeks giving it good splitting capabilities so you can chop firewood.

- Hand forged from Swedish carbon dioxide neutral axe steel.
- Semi-straight edge with a Scandinavian grind - polished, razor sharp and ready to use straight away.
- 440mm long (17 inches) wooden handle of linseed oil-treated American hickory.
- The head is secured with both a wooden wedge and a steel ring wedge.
- Sheath made of vegetable tanned Swedish grain leather.

Ref. no.	Model	Weight	Handle Length	Pack Qty	Unit Price
841780	DVARDALA 0.7	960g	440mm	1	139.00
842771	AHC 440-43x18 HB (Spare Handle)	286g	440mm	1	26.50

**NEW**

# Hultafors Premium Axes

All Hultafors premium axes are hand-forged and made from Swedish axe steel in a foundry that has been in operation since 1697. The axe head is struck multiple times thereby increasing its density and resulting in a more durable axe. The American hickory handle is treated with linseed oil and each axe comes with a traditional leather protective sheath (replacement sheaths and handles are available).

Each axe has its own box and comes with a detailed user manual. Due to the quality and craftsmanship involved, Hultafors offer a full lifetime warranty on all premium axes.

Packed in 1-packs unless otherwise stated.

## ÅGELSJÖN MINI HATCHET

Small hatchet suitable for hiking in the woods or for tasks around the camp site. Easy to pack in a backpack or attach to a belt. Weight: 775g.

Ref. no.	Model	Handle Length	Unit Price
841760	Ågelsjön 0.5	235mm/9"	131.60
840766	Spare Sheath	-	40.89
842760	Spare Handle	235mm/9"	33.03

## HULTÅN HATCHET

Versatile and lightweight hatchet suitable for most outdoor tasks. Weight: 805g.

Ref. no.	Model	Handle Length	Unit Price
841701	Hultån 0.5	375mm/16"	138.88
840766	Spare Sheath	-	40.89
842701	Spare Handle	375mm/16"	33.53

## EKELUND HUNTING AXE

Classic hunting axe featuring a ground neck. Ideal for forestry and hunting. Weight: 1210g.

Ref. no.	Model	Handle Length	Unit Price
841710	Ekelund 0.85	500mm/20"	160.54
840716	Spare Sheath	-	42.90
842710	Spare Handle	500mm/20"	36.16

## QVARFOT FELLING AXE

Efficient forester's axe, suitable for small scale forestry. Weight: 1260g.

Ref. no.	Model	Handle Length	Unit Price
841720	Qvarfot 0.85	650mm/26"	153.30
840716	Spare Sheath	-	42.90
842720	Spare Handle	650mm/26"	42.37

## STÅLBERG CARPENTER'S AXE

Axe with straight handle and finger notch in the axe head, allowing a grip straight above the centre of the cutting edge, ideal for precise work. Weight: 1225g.

Ref. no.	Model	Handle Length	Unit Price
841730	Stålberg 0.8	500mm/20"	153.30
840736	Spare Sheath	-	41.98
842730	Spare Handle	500mm/20"	36.16

## HULT SPLITTING AXE

Solid splitting axe, for heavier duties such as splitting logs and wood. Weight: 2020g.

Ref. no.	Model	Handle Length	Unit Price
841740	Hult 1.5	750mm/30"	175.47
840746	Spare Sheath	-	40.89
842740	Spare Handle	750mm/30"	53.87

## WETTERHALL THROWING AXE

Distinctive double bit axe, primarily used as a throwing axe. Weight: 2280g.

Ref. no.	Model	Handle Length	Unit Price
841750	Wetterhall 1.6	760mm/30"	452.72
840756	Spare Sheath	-	50.39
842750	Spare Handle	760mm/30"	57.92

## ÅBY FOREST AXE

Ideal forest companion with straighter edge and Scandinavian grind. Weight: 1015g.

Ref. no.	Model	Handle Length	Unit Price
841770	Åby 0.7	610mm/24"	211.65
840776	Spare Sheath	-	41.98
842770	Spare Handle	610mm/24"	39.13

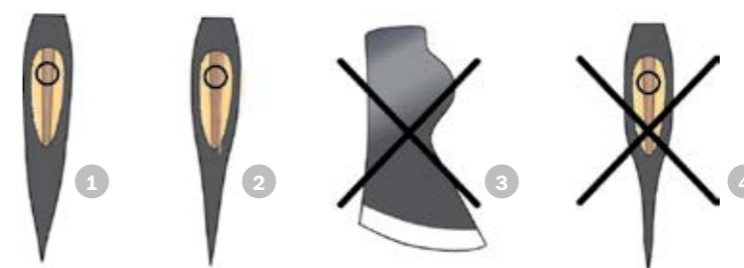

# SHARPEN, STORE AND USE

**Sharpening.** Use a convex edge for applications such as delimiting, felling and splitting (1). Use a straight edge for hacking (2). An axe that has been sharpened at an angle is dangerous to use as it can easily slip! (3). A concave edge entails a high risk of the axe splintering (4). You can sharpen your axe edge using sandpaper or a bench grinder. The safest way to sharpen is using a wet grinder, but sometimes it may be necessary to first grind out burrs or other damage using a different method, e.g. a bench grinder.

**Storage.** Never store your axe in excessively dry places, e.g. in boiler rooms or leaning against a heater. You then risk the shaft drying out and the axe head coming loose whilst being used.

**Use.** Never strike the neck of the axe with another tool. Never use the axe as a sledge. Only sledge axes can withstand being used as a sledge.

**NB:** It is very important that you take care when sharpening and ensure that the axe is not affected by heat! If any part of the axe turns a blue colour, it signals that its tempered zone has disappeared in that part of the axe and it is no longer resistant to wear.

# RE-HANDLE.

**Re-Handle.** If an axe, sledge or hammer breaks, it is almost always the shaft/handle that is the culprit. A poor quality or damaged shaft is a major safety risk. However, if the head is still in good condition, you can re-use your tool by fitting a new shaft. When fitting a new shaft to your tool, it's important to ensure that the shaft is dry. If it's not and dries after the head has been fitted, there is a danger that the head will come loose. This also applies to the wedge if you fit a new shaft using a wooden wedge.

### Shaft Key:

A = Ash  
S = Steel  
G = Fibreglass  
H = Hickory  
B = Beech

### Model Designation Key

BHS 295 - 19 x 11  
↓ ↓ ↓  
Model Length Eye

### To fit a new shaft, do the following:

- Cut off the existing shaft just below the head.
- Drill a number of holes in the eye.
- Tap out what is left and clean the eye.
- Press and tap the head onto the new shaft, firmly but carefully. Cut off the protruding part of the shaft.
- Fit the steel wedge so that the end of the shaft fills the eye. If the steel wedge is not sufficient, you should fit a wooden wedge before the steel wedge. You can make this by cutting a wedge from a dry piece of hard timber. Then split the end of the shaft using a chisel. Apply some wood glue, tap in the wooden wedge and then cut off the excess.
- Tap the steel wedge out so that it locks the wooden wedge in position. Then apply oil to the end of the shaft to protect it against moisture.

# ARVIKA 5 STAR AXE

Packed in 4-packs.

Ref. no.	Model	Handle Length	Weight	Unit Price
840511	8F-2.0 800/32"	800mm/32"	2750g	222.19

Large felling axe designed for competition and serious chopping. The design of the head is inspired by Australian Racing Pattern Axes, polished and heavy with a convex ground edge. The long and curved handle in American hickory provides maximum speed and force when felling trees.

# HAMMERS

Pick up one of our hammers and you'll feel it at once: it just feels right in your hand. Once you've worked with it for a while, we promise that you'll see what makes it stand out from the crowd. Versatile yet powerful and perfectly designed for your work.

## CARPENTER'S HAMMER TR

An ergonomically designed hammer, forged in one piece for increased durability with a vibration damping urethane plug. Thin, strong claw that affords easy access without leaving marks. The claw opening and angle give the best possible grip on the nail. Ergonomically designed handle with clear end stop and a secure grip.

- Vibration damping urethane plug.
- Right angle and shape of striking face.
- Steel shaft with I-profile for increased durability.
- Thin, strong claw that affords easy access without leaving marks. In addition, the claw is rounded to prevent it tearing your trousers.
- Straight claw for better access and a longer shaft for more power for more demanding applications.
- Ergonomically designed handle with a clear end stop.

Ref. no.	Model	Weight	Handle	Pack Qty	Unit Price
820220	TR 16 XL	740g	X-Large	2	54.56
820240	TR 20 XL	810g	X-Large	2	56.05

## DEAD BLOW HAMMER DB

With the dead blow hammer you can count on all the power you need, but with reduced recoil and without sparks. The dead blow function uses steel bearings to cushion the shock and reduce recoil. The design features soft faces that minimises the risk of leaving marks on the work piece, and a flat area on the head that allows upright storage.

- Soft faces, easy on the work piece.
- Dead blow function uses steel bearings to cushion the shock and reduce recoil.
- Ergonomic handle of fibreglass and grip of Santoprene rubber.
- Non-sparking.
- Flat area on head allows upright storage.

Ref. no.	Model	Weight	Handle	Pack Qty	Unit Price
823411	DB 600	570g	Fibreglass	2	62.62
823412	DB 1200	1160g	Fibreglass	2	91.55
823413	DB 1600	1650g	Fibreglass	2	125.39
823414	DB 5000	5700g	Fibreglass	2	343.76

## ELECTRICIAN'S HAMMER EL

A versatile hammer with U-shaped striking face. The U-shape makes it possible to work close to ceilings and corners without leaving marks on surrounding surfaces. Ideal for working in confined spaces.

- The U-shaped head makes it possible to work close to ceilings and corners.
- The straight claw makes it easy to get at and remove nails and clamps in confined places.
- Ergonomically designed handle for good grip along the entire handle, regardless of power or precision.

Blasted and clear-lacquered ironwork, with tempered and plane-ground striking face on both sides. Steel shaft with rubber grip. Packed in 2-packs.

NEW

Ref. no.	Model	Weight	Handle	Unit Price
822112	MER 1200	1700g	Steel	59.97

## Fully forged precision.

### Claw Hammer – TR EL

A smaller and lighter hammer developed for precision and work in tight spaces. Forged in one piece for maximum strength and durability.

The U-shaped striking face makes it possible to work close to ceilings and corners without leaving marks on surrounding surfaces. This makes the hammer ideal for electricians or for putting up mouldings and skirting boards or for working with fine carpentry. A straight claw also makes it easier in limited spaces as you can hold the hammer at a smaller angle and access the nail almost straight from above.

The ergonomically designed handle with a clear end stop provides a secure grip and has a hole for lanyards. Markings in the handle at 200 and 250mm help you to put cable clamps at an even distance.

- Small head with a U-shaped striking surface optimised for work near ceilings and corners.
- Forged in one piece for maximum strength and durability.
- Thin, strong claw for good access.
- Vibration-damping urethane plug.

Ref. no.	Model	Weight	Handle	Unit Price
820050	TR EL	621g	Steel	79.47

# Demolish with quality.

WITH THE HULTAFORS WIDE RANGE OF WRECKING BARS

When working on ripping out windows or room furnishings, it is important that you choose a tool that is as easy to handle as possible. In such instances, a wrecking bar is exactly what you need. We produce a range of different bars, including levers, crowbars/wrecking bars and pry bars, in several different designs and materials. You will always be able to find one that satisfies your requirements.

## THE AWARD-WINNING ADJUSTABLE WRECKING BAR

Facilitate your work, step by step, with this advanced wrecking bar made of high-quality steel. It's adjustable in nine steps to ensure an optimum working position which allows you not only to wreck and pull out nails, but also easily break up wooden floors, lift doors or adjust construction framework.

### WRECKING BAR STEEL ADJUSTABLE 209 SB

Adjustable claw in nine steps for best working position.

Thanks to its gear ring, it can handle the same stresses as a standard wrecking bar.

Made of high quality steel.

Optimised for pulling out nails.

Secure strap function.

Ergonomic rubber-clad handle.

The curved section at the handle makes space for the hand and minimises the risk of crushing damage.

Wide, ground contact surfaces and thin ends make it easy to use and reduce the risk of leaving marks.

reddot design award  
best of the best 2012

Wrecking bar manufactured in high quality steel with ergonomic rubber-clad handle. Articulated claw, adjustable to nine different positions. Wide, ground contact surfaces and thin ends make it easy to use and reduce the risk of leaving marks.

- Adjustable claw in nine steps for best working position.
- The curved section at the chisel makes space for the hand and minimises the risk of crushing damage.
- Optimised claw for pulling out nails.
- Secure strap function.

# WORLD CLASS ACCURACY

## FISCO TAPES MADE IN THE UK BY FISCO

Setting higher standards in measuring tools, Fisco's high-tech manufacturing facility in South East England today covers over 60,000 square feet and produces over 1,500 high quality measuring instruments every hour.

Innovative product design and sophisticated manufacturing techniques are achieved through the active association of the product development team with specialist designers and engineers. This, combined with the use of high quality materials and rigorous inspection at all stages of manufacture produces a range of tapes with an accuracy that is second to none.

### Quality Assurance

Fisco is certified under the Intertek 9001:2015 and 14001:2015 Quality Assurance Scheme.

### High Precision Printing

Fisco is at the cutting edge of tape technology and has developed the world's only high precision ink-jet tape printer which guarantees precise alignment and the highest standards of measuring accuracy. The matt polyester surface reduces reflection making a visible difference when compared to many competing products. Metric tapes are

produced to accuracy levels laid down in the Measuring Instruments Directive 2014/32/EU, marked with the stipulated CE markings and appropriate accuracy levels. Metric/Imperial tapes are produced to the same level of accuracy levels.

### Calibration Service

On Pacer PL30M and PL50M metric long tapes a calibration service is offered, giving the customer the assurance of the absolute precision of their own individual tapes. Calibrated tapes are carefully checked against a precision master scale and any deviation is noted. One calibrated tape can be used as a benchmark to ensure the maintained accuracy of other tapes. All calibrated tapes are certified EC Class I, and are supplied with 'A' endings. Calibration can be varied to suit individual needs. Tapes are initially calibrated for their total length. However, additional sections of the tape can be calibrated to determine the exact error of any length of the tape, according to the requirements of individual customers.

# CHECK YOUR TAPES PRECISION

## Steel Tape Measurement Accuracy

Measurement accuracy is a very important feature of a tape measure. It is measured and stated in the form of a tolerance class. We classify measuring tapes in EC Class I and EC Class II.

Steel Tape Measure Production Tolerances		
Total length (m)	Class I (mm)	Class II (mm)
2	±0.3	±0.7
3	±0.4	±0.9
5	±0.6	±1.3
8	±0.9	±1.9
10	±1.1	±2.3
15	±1.6	±3.3
20	±2.1	±4.3
25	±2.6	±5.3
30	±3.1	±6.3
50	±5.1	±10.3
100	±10.1	±20.3

Accuracy tolerance excluding end hook.

If the hook or ring forms part of the measurement an additional allowance of ± 0.1mm (Class I) 0.2mm (Class II) is permitted.

## Changing Lengths

Often we experience significant temperature differences between summer and winter, differences that affect length of a steel tape measure. All tolerances quoted here apply at 20°C, so it is important to be aware of the measurement deviations for various temperatures.

Length Change for a Steel Tape Measure for Temperature Deviations from 20°C			
ΔT	10°C	20°C	30°C
Length (m)	Length Change (±mm)		
2	0.2	0.5	0.7
3	0.4	0.7	1.1
5	0.6	1.2	1.9
8	1.0	2.0	3.0
10	1.2	2.5	3.7
20	2.5	5.0	7.4
30	3.7	7.4	11.2
50	6.2	12.4	18.6
100	12.4	24.8	37.2

Length change ΔL is calculated using formula  $\Delta L = L \times \Delta T \times \alpha$   
 L = tape measure length, ΔT = temperature difference from 20°C.  
 α = coefficient of linear expansion (1.24 x 10<sup>-5</sup>).

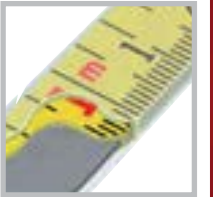

Example: If the outdoor temperature is -10°C the difference is -30°C, and the change will thereby be -3.0mm for an 8m long steel tape.

# BLADE VARIATIONS

## SHORT TAPES

### Matt Coat

Carbon spring steel, hardened, tempered and concaved to enable long extension. Polyester coated for improved abrasive resistance.

## LONG TAPES

### Matt Coat

Tough, white polyester coated steel tape. Printing is protected by an additional transparent polyester top coating. Resistant to commonly used solvents and abrasion. Tapes are accurate within the accuracy class marked on the tape, at a reference temperature of 20°C, when a tractive force of 50N is applied. This applies at all lengths to be measured.

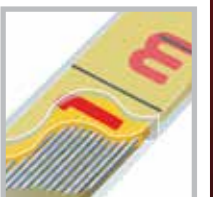

### Tough Coat

Tough, yellow polyester coated steel tape, with an extra thick nylon coating for added protection. Resistant to common chemicals, solvents, abrasion and breakage. Withstands bending, kinking and crushing. Recommended for heavy duty measuring work. Tapes are accurate within the accuracy class marked on the tape, at a reference temperature of 20°C, when a tractive force of 50N is applied. This applies at all lengths to be measured.

### Fibreglass

Highly flexible tape, much lighter than steel. Constructed from multiple unidirectional glass-fibre strands embedded in flexible PVC. The tape also incorporates an extra thick PVC coating to offer superior resistance to scuffing and marking. Fibreflex tape is electronically non-conductive when dry, corrosion proof and resistant to breakage and common chemicals. Tapes are accurate within the accuracy class marked on the tape, at a reference temperature of 20°C, when a tractive force of 20N is applied. This applies at all lengths to be measured.

# THE NEXT GENERATION

## The PR & SL Short Tapes.

Experience a new dimension of reliable precision and ease of use. Our hard-wearing PR short tapes feature high impact cases of ergonomic design with rubber coating for optimum grip. Pull the steel tape and you'll feel the high-quality precision mechanism. Smooth and silent, distinct brake and gentle return action.

Alternatively, if you prefer things that come in small packages, then our SL short tape is the one for you. A high-impact slim case which fits perfectly in your pocket, combines hard-wearing reliability with ease of use.

### PR MEASURING TAPE

Tough tape with ergonomic grip, rubber coated button and brake pad area, with a high impact case made of ABS plastic. Yellow, wear resistant blade graduated using highly accurate ink-jet print. Smooth blade return action and bump stop with anti-wear function.

- Type approved as per EC Class I.
- Metal hole hanger for strap enabling safe work at heights.
- Strong stainless steel end-hook with reinforcement plate.
- Distinct brake causing no blade movement.
- The blade can be replaced and is available as a spare.

### SL MEASURING TAPE

Slim model with a high impact case made of ABS plastic. Yellow, wear resistant blade graduated using ink-jet print. Smooth blade return action and bump stop with anti-wear function.

- Type approved as per EC Class I.
- Metal hole hanger for strap enabling safe work at heights.
- Strong stainless steel end-hook with reinforcement plate.
- Distinct brake causing no blade movement.
- The blade can be replaced and is available as a spare.

# Better rust resistance in tough conditions.

A measuring tape with a polyester-coated stainless steel blade and a stainless steel spring. Made for work in wet environments.

### SHORT MEASURING TAPE PRSS - STAINLESS STEEL

The blade is graduated using highly accurate inkjet printing to give you optimal contrast and precision when measuring.

The casing is made from high impact ABS plastic, rubber-coated for a better grip and impact resistance. Features an ergonomic grip and rubber-coated brake button, plus a smooth blade return action and bump stop with an anti-wear function that protects the blade and end-hook.

The 4m model has a slim metal belt clip. The 6m model has a detachable belt clip with a quick-release function that makes it easier to release the tape with one hand.

- Stainless steel blade and spring.
- Type approved as per EC Class I.
- Metal clip for attaching a lanyard when working at heights.
- Strong stainless steel end-hook with a reinforcement plate.
- Distinct brake causing no blade movement.
- The end-hook adjusts itself for internal measuring.

Ref. no.	Model	Length	Class	Blade Width	Pack Qty	Unit Price
350403	PRSS 4M	4m	I	19mm	2	28.11
350503	PRSS 6M	6m	I	25mm	2	44.00

## Short Tapes

All short tapes have Matt Coat steel blades.

# BIG T

Innovation at its very best. Hundreds of hours of research amongst builders, carpenters and many other professionals helped to develop the Big T measuring tape which sets new standards in design and technology.

## 7 BIG BENEFITS

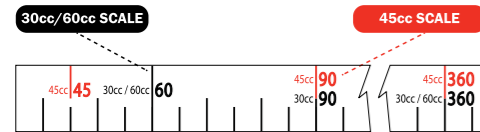

Probably the world's most advanced measuring tape. Developed based on hundreds of hours of detailed on-site research, looking at every aspect of how professionals measure. The result is a tape with a multitude of user benefits designed for measuring more quickly, easily and reliably.

- Tough rubber protection with patented shock absorber.
- Ergonomic case shape feels moulded to your hand during use.
- Superior brake control with maximum holding power.
- Clear-view end-hook allows blade to be read right to the tip.
- Rubber grip tips locates and holds the blade tip firmly.
- Easy inside measurements make add-ons easy.
- Quick-release belt holster holds tape securely and is easy to insert and release.

### BIG T MEASURING TAPE BT

Ref. no.	Model	Length	Class	Blade Width	Pack Qty	Unit Price
356113	BT5ME	5m/16ft	I	19mm	2	25.11
356133	BT5ME	5m/16ft	I	19mm	5	25.11
356123	BT5M	5m	I	19mm	2	25.11
356213	BT8ME	8m/26ft	I	25mm	2	30.43
356233	BT8ME	8m/26ft	I	25mm	5	30.43
356223	BT8M	8m	I	25mm	2	30.43

Models 356123 and 356223 only:

The back of the blade is marked with CC-measurement for 30, 60 and 45cm to assist with setting out walls (shown above).

# BIG T 5.4m

40cm extra to fit regular lumber lengths

### SHORT MEASURING TAPE BT 5.4M - STEEL

The BT has an ergonomic brake button placed at the top of the housing, allowing you to operate it with both the thumb and the palm of your hand.

The yellow steel blade is graduated using highly accurate inkjet printing with a matt finish, allowing precise and reflection-free readings. The back of the blade is marked with 30, 45 and 60cm CC measurements for setting out walls. The casing is made of high impact ABS plastic with rubber protection at all impact points.

- A unique belt clip with quick release function allows the tape to easily be released with one hand.
- Ergonomic brake for easy blade locking.
- CC graduation on reverse of blade every 30, 45 and 60cm.
- Easy internal measurement, a fold out bracket makes the housing 100mm long.
- Rubber end-hook for better grip and protection.

Ref. no.	Model	Length	Class	Blade Width	Pack Qty	Unit Price
356303	BT 5.4M	5.4m	I	19mm	2	25.31

# TALMETER

## EASIER MEASURING & MARKING

The Talmeter allows you to take a measurement and then mark it directly onto your work piece, without even reading off the scale to verify the length. Thanks to the combined measuring and marking edges and a firm brake you can keep your set measurement and securely transfer it to any object, over and over again.

### TALMETER MARKING MEASURE

Impact resistant steel tape measure with a 16mm wide blade, graduated in millimetres. ABS plastic case. Combined marking and measurement edges mean that you can quickly and simply measure and mark both internal and external lengths. The tape and extender can be replaced and are available as spare parts.

Ref. no.	Length	Blade Width	Pack Qty	Unit Price
359103	2m	16mm	6	18.33
359203	3m	16mm	6	22.23
359303	6m	25mm	2	54.17

### TALMETER REFILL BLADES RB

Ref. no.	Length	Blade Width	Unit Price
359111	2m	16mm	11.01
359211	3m	16mm	14.97

### TALMETER EXTENDERS MT-SL/RMT

Individually packed

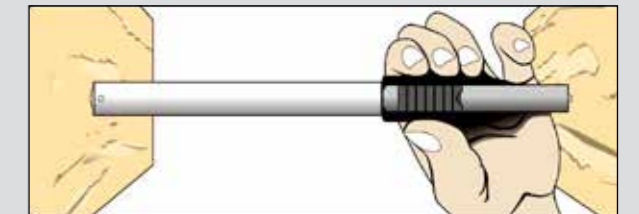

Ref. no.	Model	Unit Price
359003	MT-SL	4.36
900122	RMT	1.82

### TALMETER FEATURES

The number of measurement units that the length comprises can be read from reading the indicators against the scale. However, if it is possible to etch the length directly on the workpiece, actually reading the measurement becomes completely unnecessary.

The fold-out extender is designed to make internal measurements just as easy to take as external measurements.

The combined measurement and marking edges allow you to take your measurement and then transfer that measurement to your workpiece.

Measure internal lengths just as quickly and simply as external lengths.

Use as a compass and draw precise arcs with a single hand.

### 2M / 3M MODELS ONLY

The stiff, yet flexible tape makes it easy to measure diameters and exact circumferences.

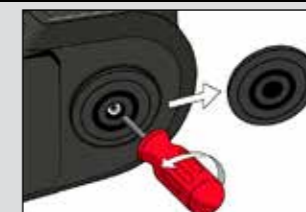

### 6M MODEL ONLY

A notch on rear edge of the housing allows the attachment of a safety line.

Unique belt clip with a quick release function that allows the marking measure to be released with one hand.

The belt clip attachment is easy to remove.

Button with three functions:  
1. Autolock position - tape can be adjusted in and out.  
2. Release position - tape retracts into the housing and is easy to pull out.  
3. Brake position - the tape is locked.

# BRICK-MATE™

The innovative way to set out dry bonds and accurately calculate brick quantities.

Use the Brick-Mate for any bricklaying job - big or small - it will save time, effort and money.

## DESIGNED FOR PURPOSE

A specialist tape measure designed specifically to aid professional bricklayers in their work.

- Unique blade design with three scales to calculate brick & block quantities and course heights, along with a conventional metric scale accurate to EC Class I, for general measuring.
- Saves the builder time and money when costing for building work.
- Saves time and effort - no more laying out dry bonds means setting out buildings takes minutes instead of hours.
- Bright ergonomic ABS case for easy on-site visibility.
- Reinforced sliding end-hook ensures a true zero point whether hooking on or butting up.
- Nonreflective blade for easy reading, even in strong sunlight.
- Easy to operate positive lock, minimising blade slip.
- Unique snap-in quick-release belt clip holster.
- Also available as a countertop display unit containing 6 pieces with header card.

### BRICK-MATE™ MEASURING TAPE BM

Ref. no.	Model	Length	Class	Blade Width	Pack Qty	Unit Price
352403	BM8M	8m	I	25mm	2	26.97

# STAINLESS STEEL BRICK-MATE™

Trusted by the trade for over 20 years, the iconic Brick-Mate™ is now also available as a stainless steel version.

- Even more durable and resistant to corrosion.
- Made in Britain using sustainable materials.
- Easy to clean and less likely to clog up with dust and debris when used in the wet.
- Exceptional impact resistance and strength.

**NEW!**  
FOR 2024

# SURVEYOR ADVANCED ERGONOMICS

The outstanding result of five years of in-depth research and development, the Surveyor sets new high standards for professional tapes. Through stages of rigorous tests and prototyping, a whole series of innovative design features have been incorporated into the high performance tape, exemplified by its distinctive design.

- Impact resistant ABS frame with rubber overmould protection.
- Right and left hand flip-out ergonomic rewind handle.
- Press button firm blade lock with simple release.
- Rubber grip top handle and lower base grip.
- Integral ground spike for end-hook anchoring.
- Corrosion resistant triple action end-hook.
- Low friction action for smooth rewind.
- Scaled diameter blade drum for balanced rewind speed.
- Easy clean blade feed with side flush apertures.

### SURVEYOR MEASURING TAPE SY

1.3mm Tough Coat steel tape.

Ref. no.	Model	Length	Class	Blade Type	Pack Qty	Unit Price

353501	SY50M	50m	I	Tough Coat	1	120.40

## CC LONG TAPES

The CC tapes have a unique one hand grip for each case size enabling optimal handling. Available in a variety of lengths with either, a 'Matt Coat' polyester coated steel or PVC overcoated fibreglass blade. With a solid high-impact case of ABS plastic that is tougher than an equivalent steel case. Unique loop with added features and a mouth-piece with anti-wear function.

- Matt Coat polyester coated steel blades are accurate to EC Class I.
- PVC overcoated fibreglass blades are accurate to EC Class II.
- High impact ABS case with unique hand grip enabling optimal handling.
- The medium size case has a quick rewind function 3:1.
- Hole hanger for strap enabling safe work at heights.

Net price for nominal length. Calibration cost is in addition to standard product price.

## LONG TAPE ENDINGS

Hultafors long tapes have four alternative beginning points:

**A Endings** - Zero point is approximately 100mm from the end of the tape.

**B Endings** - Zero point is at the end of the tape.

**C Endings** - Zero point is at the inside edge of the claw.

There is also a choice of four end-rings that can be fitted to the tapes:

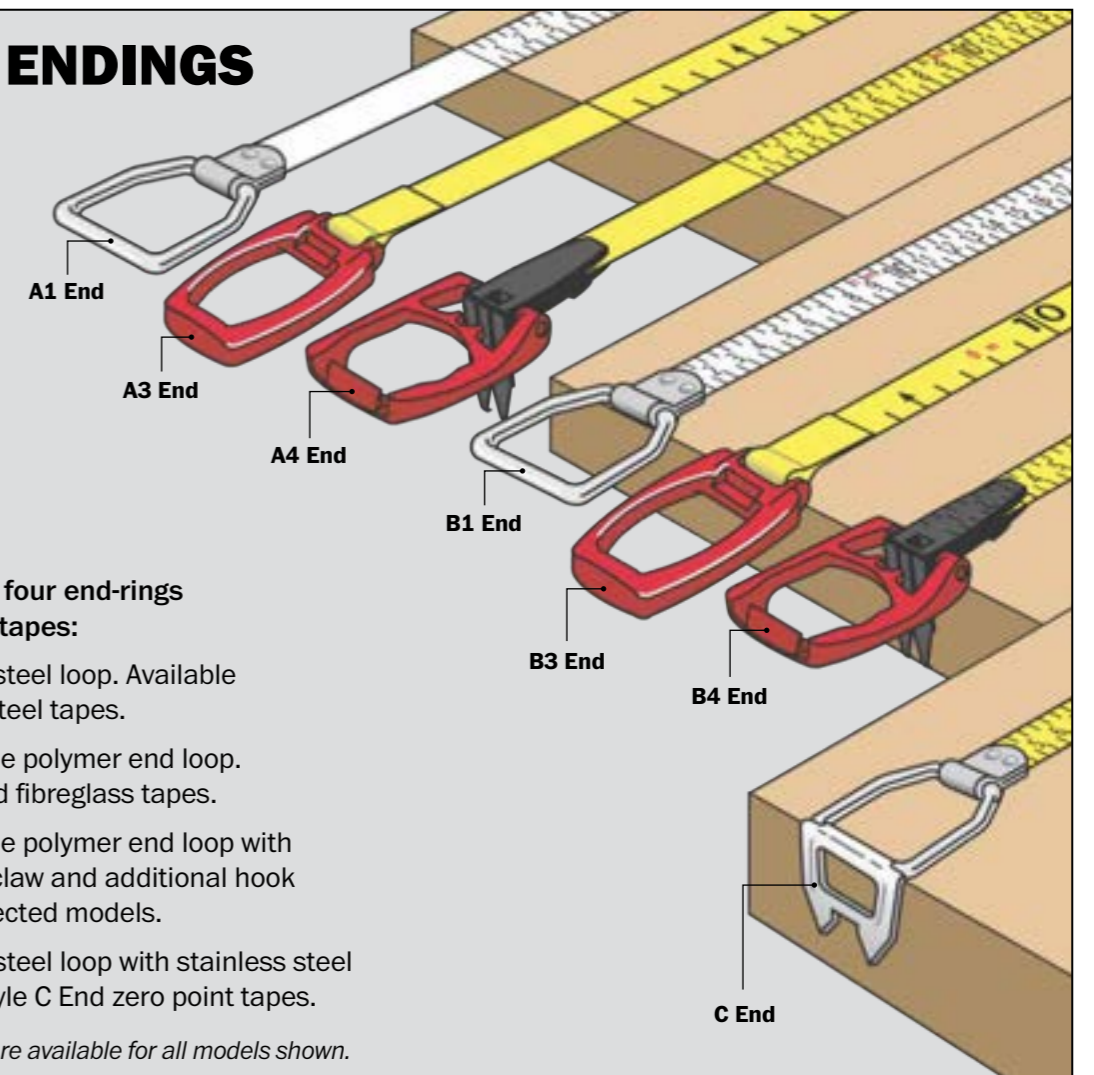

**Type 1** - High grade mild steel loop. Available with single sided metric steel tapes.

**Type 3** - Engineering grade polymer end loop. Available with single sided fibreglass tapes.

**Type 4** - Engineering grade polymer end loop with integral precision fold-in claw and additional hook on bar. Available with selected models.

**Type C** - High grade mild steel loop with stainless steel claw. Standard with all style C End zero point tapes.

Please note: Not all endings are available for all models shown.

## ROAD METER

A robust measuring wheel for professional surveying, highway and site work.

### ROAD METER MEASURING WHEEL WH

- Tough, metal gearing and working parts for longevity.
- Belt drive is easier to replace and more durable than other mechanisms.
- Clear reading counter mechanism displays metres and centimetres and has an instant reset lever accurate to 0.1%.
- An extremely tough die-cast fork frame which holds wheel bearings.
- Swivel link folds sideways for quick collapse and packing.
- Integral dirt scraper removes dirt to keep wheel accurate.
- Easy to use foot operated brake which locks the wheel at the required measurement. The folding stand can be steadied by a foot to prevent wheel being blown over by wind or traffic movement.
- Pointer clearly visible for accurate start and end readings.
- Circumference - 1m
- Height - 900mm
- Weight - 2.7kg
- Counter range - 9999.99m

Ref. no.	Model	Height	Weight	Unit Price
550010	WH10	900mm	2.7kg	273.73

# Spirit Level ELV 40

## The spirit level for electricians

Spirit level for electrical installations. The C-shaped aluminium profile has plastic end pieces and rubber spacers that protects and prevents the spirit level from sliding on the measuring surface. The sliding markers with graded 71mm centre spacing, allow for quick and accurate positioning when installing switch or junction boxes according to DIN 49075.

- Tolerance in normal position is  $\pm 0.5\text{mm/m}$ , upside down  $\pm 0.75\text{mm/m}$ .
- Focus vial with colour markings for easy reading and with a 200mm radius giving a sensitivity of 10mm/m.
- The liquid in the vial is a low viscosity coloured oil mixture that gives the bubble optimal freedom of movement.
- The anti-static properties of the liquid means that the bubble is not affected by static electricity.
- Printed millimetre grid scale on profile.

Ref. no.	Model	No. of Vials	Length	Material	Pack Qty	Unit Price
408605	ELV 40	2	400mm	Aluminium	1	71.64

NOW WITH BLUETOOTH CONNECTIVITY

Measuring for angles and manually marking out inclination can be difficult and the risk for error is high. For these occasions, a digital spirit level will provide accurate readings, therefore making the job more efficient. These levels have a backlit display and an acoustic signal that indicates when the correct angle is reached. It is also possible to store previous measuring results.

# Go digital for precise inclination

### DIGITAL SPIRIT LEVEL D 60

Spirit level with a digital unit mounted in a robust aluminium box profile with Bluetooth connection. For measuring inclination in different applications.

The measurement area is 360°, split into four 90° zones. The vials are highly resistant to ultraviolet light and temperature fluctuations. The vials have a +30% magnification lens and the horizontal vial has a luminescent reflector. Easy battery change and automatic shut-off after 5 minutes.

- Tolerance of vials in normal/inverted position is  $\pm 0.5\text{mm/m}$ .
- Shock absorbing end protectors with anti-slip function.
- The display shows tenths of degrees, percentages, mm/m or inch/feet.
- Electronic unit tolerance in horizontal (0°) and vertical (90°) position is  $\pm 0.05^\circ$ , for other angles  $\pm 0.1^\circ$ .

UPDATED DESIGN

### DIGITAL SPIRIT LEVEL MAGNETIC DM 60/120

Spirit level with a digital unit mounted in a robust aluminium box profile with Bluetooth connection. With the help of integrated magnets, the digital spirit level can easily be attached to metal surfaces. For measuring inclination in different applications. The measurement area is 360°, split into four 90° zones. The vials have a +30% magnification lens and the horizontal vial has a luminescent reflector. Easy battery change and automatic shut-off after 5 minutes.

- Strong neodymium magnets integrated in the profile.
- Tolerance of vials in normal/inverted position is  $\pm 0.5\text{mm/m}$ .
- Shock absorbing end protectors with anti-slip function.
- The display shows tenths of degrees, percentages, mm/m or inch/feet.
- Electronic unit tolerance in horizontal (0°) and vertical (90°) position is  $\pm 0.5^\circ$ , for other angles  $\pm 0.1^\circ$ .

# Spirit Level IV 40

## Precision in every installation

Spirit level for installation applications. Robust aluminium profile with neodymium magnets. This, along with the V-shape of the profile, allows for a strong hold on pipes and other metal surfaces. Centre point scale on top of the profile for quick measurement and layout in different applications.

- Tolerance in normal position is  $\pm 0.5\text{mm/m}$ , upside down  $\pm 0.75\text{mm/m}$ .
- Neodymium magnets integrated in the profile for strong magnetic force.
- The liquid in the vial is a low viscosity coloured oil mixture that gives the bubble optimal freedom of movement.
- Block Vial with additional rings for 2% inclination indication when measuring horizontally.
- Double vials for both horizontal and vertical measurement.

# Torpedo Spirit Level - TV20

## Pocket optimised levelling

A compact, lightweight and versatile spirit level, designed with tapered ends to fit perfectly in your pocket.

It comes equipped with crush-proof tubular vials - horizontal, vertical and 45° angle. All three vials are highly resistant to ultraviolet light and temperature fluctuations. The liquid gives the bubble optimum freedom of movement and is not affected by static electricity.

It's made from impact resistant ABS plastic and an aluminium core that makes it both more durable and precise. A strong magnet keeps it in place on pipes, beams and magnetic surfaces.

- Slim torpedo spirit level designed to fit in your pocket.
- Aluminium profile for greater durability and precision.
- 3 crush proof vials with a 200mm radius giving a sensitivity of 10mm/m.
- Tolerance +/-1.0mm/m.
- Strong magnet along the entire contact surface.

### EN17 DIGITAL INCLINOMETER

Ref. no.	Dimensions	Unit price
408431	167 x 5 x 35mm	212.58

### POCKET SPIRIT LEVEL MPL

Compact spirit level for fast and reliable horizontal measuring, features crush-proof block vial with magnifying effect.  
Tolerance: Normal 1.00mm/m.  
Quantity per pack: 10.

Ref. no.	Model	Length	No. of Vials	Unit Price
401303	MPL	68mm	1	21.12

### POCKET SPIRIT LEVEL MPL MAGNETIC

Compact spirit level with magnet for fast and reliable horizontal and vertical measuring, features crush-proof focus vial with magnifying effect. The strong magnet and V-groove facilitates measurement on flat or curved surfaces such as pipes, beams etc.  
Tolerance: Normal 0.75mm/m.  
Quantity per pack: 10.

Ref. no.	Model	Length	No. of Vials	Unit Price
401313	MPL MAGNETIC	68mm	1	27.81

### DIGITAL POCKET LEVEL DPL

Smart and compact multifunctional digital pocket level. This device combines the functions of a spirit level, an inclinometer and a protractor in one device. The auto-rotating backlit display and v-grooved magnetic base allows for use in many environments. Switchable acoustic signal. Combine it with our Hultafors Measures app, to show the full potential of this small spirit level.

- Tolerance of 0.05° at 0° and 90°, 0.2° between 1° and 89°.
- Magnetic base with V-groove ensures a secure hold on pipes and metal surfaces.
- Bluetooth interface for use with the Hultafors Measures app.
- Display measure values switchable between °, %, mm/m, and in/ft.
- Included belt pouch for protection and transportation.

# MULTI-FUNCTION SPIRIT LEVEL LIBELLA 2000

Libella 2000 is a short spirit level cast in aluminium with a smooth-finished contact surface. It is equipped with crush-proof block vials that have magnifying lenses and a luminescent reflector, which facilitates reading in environments that are not optimal.

The radius of the vial is 1000mm, giving a sensitivity of 2mm/m. Tolerance in normal position is  $\pm 0.25\text{mm}$ , upside down  $\pm 0.75\text{mm/m}$ . Adding spirit level rails and gradient wedges will increase the number of applications your Libella 2000 can be used for.

1. When fitting door/window frames, LIBELLA 2000 can be used with a spirit level rail.

2. Using a spirit level rail and extensions, the maximum length is increased to 3100mm.

3. In narrow spaces, use LIBELLA 2000 only.

4. You can check inclines using the gradient wedge.

## LIBELLA 2000 SPIRIT LEVEL

Aluminium.  
Tolerance: Normal  $\pm 0.25\text{mm/m}$ , Inverted  $\pm 0.75\text{mm/m}$ .

# Rafter Squares

## RAFTER SQUARE

The Hultafors Rafter Square is now available in two new sizes – mini and large – and both feature a white area on the reverse for making notes. It features a solid aluminium body with CNC-machined edges for greater accuracy and durability. The tool allows you to make fast and precise 45° and 90° markings. In addition, its thick edge is useful as a saw guide – it can be used directly with the saw against the square for cross cuts or angled cuts. This highly versatile tool can be used indirectly as well, using the scribing notches to create a pencil line or for when cutting plaster with a knife. The Hultafors Rafter Square can also be used as a protractor, for easily finding and marking various common angles, and has scales for cutting hip, valley and jack rafters.

- Low-glare protective anodized finish.
- Graduations are laser etched, highly resistant to wear and numbers are highly visible.
- Scribing notches.

# CLP 30

## HIGH CAPACITY CHALK LINE. DISTINCT LINES IN EVERY SNAP.

Advanced ergonomic design combined with cutting-edge functionality makes precision marking easier than ever. Simply fill it up and snap, over and over again.

- Absorbs more chalk - up to 10 distinct lines
- Rewinds 3x faster than traditional chalk lines
- Quick reel-out gear release
- Overload protection

102964	599-2-6 KM	2m	24mm	82.28

### BENCH RULE BR

Quantity per pack: 5.

Ref. no.	Model	Length	Width	Unit Price
550161	9-100/25 FI	1m/3ft	25mm	14.15

### ALUMINIUM FOLDING RULE

Anodised aluminium with galvanised steel joints.

Quantity per pack: 5.

Ref. no.	Model	Length	Width	Unit Price
150203	A 61-2-10	2m/6ft	15mm	37.05
150303	A 61-1-6	1m/3ft	15mm	23.01

### RULE XFB

White Polycarbonate Four Fold Rule with bevelled edges.

Quantity per pack: 10.

Ref. no.	Model	Length	Width	Unit Price
201512	XFB-1ME	1m/3ft	36mm	18.51

### RULE XFY

ABS General purpose four fold rule.

Quantity per pack: 10.

Ref. no.	Model	Length	Width	Unit Price
201312	G64-1-4-16 ME	1m/3ft	32mm	9.91

### FOLDING RULE G 59-2.4-12 GU

Fibreglass reinforced polyamide.

Quantity per pack: 5.

Ref. no.	Model	Length	Width	Unit Price
201304	G59-2.4-12 GU	2.4m	15mm	19.08

### FOLDING RULE G559

The Contact-Meter has a metric scale printed on the opposite side of the sections compared to a standard folding rule. This enables you to place it flat against a surface - even when it is not completely folded out - which makes it easier to measure with good precision.

Quantity per pack: 10.

Ref. no.	Model	Length	Width	Unit Price
201804	G559-2-10 GU	2.4m	15mm	15.64

# Clear marks, on all types of surfaces

Hultafors range of marking tools consists of both traditional carpenter pencils and the next generation of tools for marking. The products are developed together with professionals and are designed for making your workday more efficient, no matter what material you are dealing with.

## DRY MARKER HDM

Grip-friendly pencil in holster with built-in sharpener for clear markings. Packed in 10-packs.

- Grip-friendly and ergonomic design.
- Roll stop on both pencil and holster.
- Sharp and accessible sharpener placed in the holster.
- Optimised lead for durability and resistance to moisture
- Refill is available with 10 leads in a smart container.

Art.no	Model	Length	Width	Height	Unit Price
650100	HDM	164mm	21mm	28mm	12.91

## INK DEEP-HOLE MARKER

Ink pen for marking in hard-to-reach places and in narrow holes. Packed in 10-packs.

- Available in permanent red and black ink.
- For marking in hard-to-reach places.
- Works on most materials and surfaces.

Art.no	Model	Colour	Length	Width	Height	Unit Price
650310	HIDHM B	Black	141mm	13mm	16mm	5.15
650320	HIDHM R	Red	141mm	13mm	16mm	5.15

## DRY MARKER DISPLAY

An easy-to-place counter display that combines the Dry Marker and the Dry Marker Refill. The display holds 20 pencils and 10 refills. Packed in 1-packs.

- Includes 20 Dry Markers, 5 refills with graphite leads and 5 refills with graphite leads and chalk in red and yellow.

Art.no	Model	Length	Width	Height	Unit Price
650130	HDM RD	212mm	163mm	166mm	345.81

## DRY MARKER BLISTER PACK

Grip-friendly pencil in holster with built-in sharpener for clear markings in blister packaging. Packed in 10-packs.

Art.no	Model	Length	Width	Height	Unit Price
650200	HDM	131mm	23mm	28mm	14.66

## DRY MARKER & REFILL BLISTER PACK

Smart starter package with the Hultafors Dry Marker and refill container with 10 leads for marking on all types of surfaces in blister packaging. Refill contains 10 leads of different colours (graphite, red and yellow) for the Dry Marker. Packed in 10-packs.

Art.no	Model	Length	Width	Height	Unit Price
650230	HDM-STRT	247mm	80mm	34mm	21.55

## DRY MARKER REFILL

Smart container with 10 leads for marking on all types of surfaces. Hultafors refill can be attached with a clip to a pocket or a tool bag. The design of the container protects the leads during transport and only ejects one lead at a time. The refill is now available in 8 colour combinations and fits the Hultafors Dry Marker. Packed in 10-packs.

- Refill with 10 leads for Dry Marker.
- Clips for easy storage in pocket or bag.

Art.no	Model	Colour	Length	Width	Height	Unit Price
650110	HRD G	Graphite	131mm	23mm	28mm	8.04

650240	HRD-BGW	Blue/Green/White	214mm	65mm	30mm	9.46
650250	HRD-R	Red	214mm	65mm	30mm	9.46
650260	HRD-Y	Yellow	214mm	65mm	30mm	9.46
650270	HRD-B	Blue	214mm	65mm	30mm	9.46
650280	HRD-GR	Green	214mm	65mm	30mm	9.46
650290	HRD-W	White	214mm	65mm	30mm	9.46

# Permanent Marker Set

Permanent marker that adheres to almost any material. Set includes four colours: blue, red, green and black, for high readability regardless of the colour of the surface. The shape of the tip allows for fine marks when needed.

- Permanent marker with alcohol-based ink.
- Set contains four pens in colours blue, red, green and black.
- Round tip allows for precision marking.
- Made in Sweden with environmentally friendly materials.
- Works on most materials and surfaces.
